Young Violent And Dangerous To Know Psychiatry Theory Applications And Treatment

Richard Rosner

Young Violent And Dangerous To Know Psychiatry Theory Applications And Treatment:

Global Emergency of Mental Disorders Jahangir Moini, Justin Koenitzer, Anthony LoGalbo, 2021-05-18 Global Emergency of Mental Disorders is a comprehensive yet easy to read overview of the neurodevelopmental basis of multiple mental disorders and their accompanying consequences including addiction suicide and homelessness Compared to other references that examine the treatment of psychiatric disorders this book uniquely focuses on their neurodevelopment It is designed for neuroscience psychiatry psychology students and various other clinical professions With chapters on anxiety depression schizophrenia and others this volume provides information about incidence prevalence and mortality rates in addition to developmental origins With millions worldwide affected this book will be an invaluable resource Explores psychiatric disorders from a neurodevelopmental perspective Covers multiple disorders including anxiety depression and obsessive compulsive disorder Examines the brain mechanisms that underly disorders Addresses the opioid epidemic and suicide Reviews special patient populations by gender and age

Handbook of Juvenile Forensic Psychology and Psychiatry Elena Grigorenko, 2012-02-18 Juvenile justice centers have a long tradition as an unfortunate stop for young offenders who need mental health care Reports estimate that as many as 70% of the youth in detention centers meet criteria for mental health disorders As juvenile justice systems once again turn their focus from confinement to rehabilitation mental health providers have major opportunities to inform and improve both practice and policy The Handbook of Juvenile Forensic Psychology and Psychiatry explores these opportunities by emphasizing a developmental perspective multifaceted assessment and evidence based practice in working with juvenile offenders This comprehensive volume provides insights at virtually every intersection of mental health practice and juvenile justice covering areas as wide ranging as special populations sentencing issues educational and pharmacological interventions family involvement ethical issues staff training concerns and emerging challenges Together its chapters contain guidelines not only for changing the culture of detention but also preventing detention facilities from being the venue of choice in placing troubled youth Key issues addressed in the Handbook include Developmental risks for delinquency Race and sex disparities in juvenile justice processing Establishing standards of practice in juvenile forensic mental health assessment Serving dually diagnosed youth in the juvenile justice system PTSD among court involved youth Female juvenile offenders Juvenile sex offenders The Handbook of Juvenile Forensic Psychology and Psychiatry is an essential reference for researchers professors allied clinicians and professionals and policy makers across multiple fields including child and school psychology child and adolescent psychiatry developmental psychology criminology juvenile justice forensic psychology neuropsychology social work and education

The Psychology of Suicide: From Research Understandings to Intervention and Treatment Yossi Levi-Belz, Yari Gvion, Alan Apter, 2019-07-11 Suicide is a highly complex and multifaceted phenomenon with many contributing and facilitating factors and variables However given its being one of the most severe human behaviors an obvious focus would be to identify the

underlying psychological mechanisms and processes that may lead to suicidal ideation and behavior This eBook is dedicated to studies exploring various approaches to the psychology of suicidal behavior as well as of non suicidal self injury NSSI The purpose of this eBook is to shed light on in depth examinations of the current knowledge and empirical data regarding models theories and specific dimensions and variables that may help us increase the psychological understanding of suicidal phenomena The specific goal is to identify particular psychological characteristics that may be used to develop prevention and intervention methods and programs We believe that this eBook can contribute to the understanding of this behavior and help to develop specific tools therapeutic guidelines and programs that may help reduce the number of suicides occurring annually This eBook is dedicated to our dearest friend Dafni Assaf who was one of the greatest leaders of the suicide prevention program in Israel

Theories of Sexual Offending Tony Ward,Devon Polaschek,Anthony R. Beech,2006-02-22 This comprehensive text provides an up to date review and critique of current theorising about sexual offending It presents the key ideas underpinning each theory in a clear and accessible manner Theories are rigorously tested and evaluated and their merits are examined from both a research and a clinical point of view Importantly the emphasis is on providing clear links between theory and practice and the clinical implications of the different theories and perspectives are explicitly discussed In addition a number of new ideas about the aetiology of sexual offending are presented Theories of Sexual Offending is one of the few books to draw all of the disparate strands of theorising together and is the only one to clearly link theory to practice It will be a valuable resource for any professional working with sexual offenders such as clinical and forensic psychologists psychiatrists probation officers and social workers It will also be of interest to students of forensic and clinical psychology

The Life-Course of Serious and Violent Youth Grown Up Evan McCuish,Patrick Lussier,Raymond Corrado,2021-06-30 The Life Course of Serious and Violent Youth Grown Up addresses significant gaps in the literature on youth involved in chronic serious and violent offending Through longitudinal research and a long follow up into adulthood it challenges common perceptions about offending outcomes Using theoretically grounded methodologically sophisticated and empirically driven research this book culminates 20 years of data emerging from the Incarcerated Serious and Violent Young Offender Study ISVYOS Initiated in 1998 to understand the origins of serious and violent youth offending it follows 1 719 formerly incarcerated youth through adulthood and offers a contemporary perspective to questions about chronic offending in adolescence and social and offending outcomes in adulthood The authors provide a theoretically framed examination of new findings from the ISVYOS regarding participants justice system involvement from onset to persistence to desistance Most participants experienced continued involvement in the justice system in adulthood However contrary to past literature ISVYOS findings challenge static descriptions of chronic offending and notions of the youth super predator ISVYOS findings also challenge assertions that experiences and risk factors in childhood and adolescence are not informative of adult justice system involvement Together the findings call for a more humanistic approach that recognizes that the complex lives of

individuals formerly incarcerated in adolescence implies that desistance does not happen by default This book will be of great interest to scholars researchers and students of forensic psychology developmental and life course criminology youth justice and violent crime **The International Handbook of Black Community Mental Health** Richard J. Major, Karen

Carberry, Theodore S. Ransaw, 2020-06-03 This international handbook addresses classic mental health issues as well as controversial subjects regarding inequalities and stereotypes in access to services and misdiagnoses It addresses the everyday racism faced by Black people within mental health practice Programs and Interventions for Maltreated Children

and Families at Risk Allen Rubin, 2011-10-18 Evidence based interventions are increasingly being required by third party payers and an evidence based orientation has come to define ethical practice This compendium of short how to chapters focuses on the programs and interventions to prevent child maltreatment that have the best scientific evidence supporting their effectiveness Interventions and programs discussed include Cognitive Behavioral Therapy EMDR Multisystemic

Therapy Coping Cat and many more Busy practitioners will appreciate this book s implementation of evidence based practices by providing the practical and what now rather than using the typical academic approach **An Introduction to Criminal Psychology** Russil Durrant, 2013-05-07 Crime is a topic that is of considerable interest to policy makers politicians

and the public alike We want to know what factors can explain the nature and prevalence of crime in society and use this knowledge to better develop approaches for managing criminal behaviour This book provides a comprehensive overview of approaches to understanding crime and criminal behaviour with a focus on psychological perspectives A wide range of different types of criminal behaviour are considered including juvenile crime violent offending sexual offending collective

violence and drug use For each type of offence a clear overview of key conceptual and methodological issues is provided along with a detailed consideration of the major theoretical approaches that have been developed The book concludes by considering how our theoretical understanding of crime can inform our responses to criminal behaviour in terms of

punishment prevention and rehabilitation Key features of the book include an in depth coverage of a broad range of different types of criminal behaviour inclusion of a diverse range of different theoretical perspectives accessibly written with extensive use of case studies boxes and activities an extensive use of up to date references that highlight the current state of

knowledge in the field of criminal psychology This book should be of interest to students academics researchers and practitioners with an interest in criminal behaviour and is particularly suitable for undergraduate courses in criminal psychology forensic psychology and psychological criminology *Textbook of Adolescent Psychiatry* Richard

Rosner, 2003-08-29 Adolescent Psychiatry is the first text reference to provide such in depth comprehensive and practical coverage of this specialist area There are many questions pertinent to adolescence alone and these are highlighted throughout the book Starting with the important aspects of normal development the reader is then taken on to risk behaviour

and New Oxford Textbook of Psychiatry John R. Geddes, Nancy C. Andreasen, Guy M. Goodwin, 2020-03-25 Over its two

editions The New Oxford Textbook of Psychiatry has come to be regarded as one of the most popular and trusted standard psychiatry texts among psychiatrists and trainees Bringing together 146 chapters from the leading figures in the discipline it presents a comprehensive account of clinical psychiatry with reference to its scientific basis and to the patient's perspective throughout The New Oxford Textbook of Psychiatry Third Edition has been extensively re-structured and streamlined to keep pace with the significant developments that have taken place in the fields of clinical psychiatry and neuroscience since publication of the second edition in 2009 The new edition has been updated throughout to include the most recent versions of the two main classification systems the DSM 5 and the ICD 11 used throughout the world for the diagnosis of mental disorders In the years since publication of the first edition many new and exciting discoveries have occurred in the biological sciences which are having a major impact on how we study and practise psychiatry In addition psychiatry has fostered closer ties with philosophy and these are leading to healthy discussions about how we should diagnose and treat mental illness This new edition recognises these and other developments Throughout accounts of clinical practice are linked to the underlying science and to the evidence for the efficacy of treatments Physical and psychological treatments including psychodynamic approaches are covered in depth The history of psychiatry ethics public health aspects and public attitudes to psychiatry and to patients are all given due attention

Young Violent And Dangerous To Know Psychiatry Theory Applications And Treatment Book Review: Unveiling the Power of Words
