Youth Crime And Justice A Global Inquiry:

Youth, Crime, and Justice Clayton A Hartjen, 2008-03-25 Close to half of the world's population is below the age of criminal jurisdiction in most countries. Many of these young people are living in poverty and under totalitarian regimes. Given their deprived and often abject circumstances, it is not surprising that many of them become involved in crime. In *Youth Crime and Justice*, Clayton A Hartjen provides a broad overview of juvenile delinquency: how it manifests itself around the world and how societies respond to misconduct among their children. Taking a global rather than country-specific approach, chapters focus on topics that range from juvenile laws and the correction of child offenders to the abuse, exploitation, and victimization of young people. Hartjen includes specific examples from the United States, Australia, Spain, Switzerland, New Zealand, Japan, India, Egypt, and elsewhere as he sorts through the various definitions of delinquent and explores the differences in behavior that contribute to these classifications. Most importantly, his in-depth and comparative look at judicial systems worldwide raises questions about how young offenders should be corrected and how much fault can be laid on misbehaving youths acting out against the very societies that produced them.

Youth, Crime and Justice Cyndi Banks, 2013-03-12 *Youth Crime and Justice* takes a critical issues approach to analyzing the current debates and issues in juvenile delinquency. It encourages readers to adopt an analytical understanding encompassing not only juvenile crime but also the broader context within which the conditions of juvenile criminality occur. Students are invited to explore the connections between social, political, economic, and cultural conditions and juvenile crime. This book engages with the key topics in the debate about juvenile justice and delinquency: juvenile institutions, delinquency theories, gender and race, youth and moral panic, restorative justice, youth culture, and delinquency. It clearly examines all the important comparative and transnational research studies for each topic. Throughout, appropriate qualitative studies are used to provide context and explain the theories in practice, conveying a powerful sense of the experience of juvenile justice. This accessible and innovative textbook will be an indispensable resource for senior undergraduates and postgraduates in criminology, criminal justice, and sociology.

Juvenile Justice in Global Perspective Franklin E. Zimring, Maximo Langer, David S. Tanenhaus, 2017-05 Provides a comparison of criminal justice and juvenile justice systems across the world, looking for points of comparison and policy variance that can lead to positive change in the United States. Contributors discuss important issues such as the relationship between political change and juvenile justice, the common labels used to unify juvenile systems in different regions and in different forms of government, the types of juvenile systems that exist and how they differ, and more. Furthermore, they use data on criminal versus juvenile justice in a wide variety of nations to create a new explanation of why separate juvenile and criminal courts are felt to be necessary. The Global Victimization of Children Clayton A. Hartjen, S. Priyadarsini, 2012-01-12 This book describes the concept of child victimization in all its facets. Millions of young people throughout the world face violence, sexual, physical, and emotional abuse and exploitation on a daily basis. The worldwide victimization of young people

can be prevented or at least its incidence can be greatly reduced if purposeful action is taken to do so This volume researches and documents some of the ways in which young people throughout the world are victimized and suggests strategies for preventing various forms of child victimization Eight distinct forms of victimization are identified and analyzed in detail Included are discussions on child prostitution and pornography economic exploitation through child labor and trafficking physical and other abuse inflicted on young people in schools and other institutions the use of children as armed combatants and the denial of the basic needs and rights of children to such things as home and to education In each chapter the authors discuss the nature of the victimization its global dimensions and prevalence and the measures governments and or others are taking or failing to take to combat the harm based on the concept that youth victimization is a form of government crime
