The Secret Language of Spirit William Stillman,2017-11-20 The Secret Language of Spirit is the result of many years of dynamic mediumship It soars with hope and conviction Whitley Strieber 1 New York Times bestselling author The Secret Language of Spirit is the culmination of award winning author and psychic medium William Stillman's wisdom and insights in a fascinating exploration of the sometimes blatant sometimes hidden spiritual symbolism in our everyday lives With accessible language easy to understand explanations and fascinating anecdotes Stillman introduces to the open minded layperson an alternate lens through which to view daily interactions with Spirit Topics unique to this compelling new work include A thorough explanation of Heaven's inner workings Recognizing Spirit speak the silent but ever present signs and signals that surround us Decoding symbolic patterns found in nature dreams our names and the manifestation of threes Associative links in memory that correlate spiritually to music and scents Stillman's most powerful observations may be found in the chapter that correlates spiritual sensitivity with persons with autism mental illness and dementia individuals whose gibberish is often dismissed as pathology but may actually provide glimpses into another realm The Secret Language of Spirit concludes with an empowering chapter that addresses the concepts of abundance and achieving authenticity with Love's Foot Rule 12 fundamental tenets Stillman also introduces the principles of passion pursuit and prosperity and how to manifest them in concert with Spirit Particularly illuminating are the connections he makes in the communications of people with dementia mental illness and autism This pioneering book offers insights that will both inform and inspire readers Raymond Moody author of Life After Life *Mind Cure* Wakoh Shannon Hickey,2019-02-01 Mindfulness and yoga are widely said to improve mental and physical health and booming industries have emerged to teach them as secular techniques This movement is typically traced to the 1970s but it actually began a century earlier Wakoh Shannon Hickey shows that

most of those who first advocated meditation for healing were women leaders of the Mind Cure movement which emerged during the late nineteenth and early twentieth centuries Instructed by Buddhist and Hindu missionaries many of these women believed that by transforming consciousness they could also transform oppressive conditions in which they lived For women and many African American men Mind Cure meant not just happiness but liberation in concrete political economic and legal terms In response to the perceived threat posed by this movement white male doctors and clergy with elite academic credentials began to channel key Mind Cure methods into scientific psychology and medicine As mental therapeutics became medicalized and commodified the religious roots of meditation like the social justice agendas of early Mind Curers fell by the wayside Although characterized as universal mindfulness has very specific historical and cultural roots and is now largely marketed by and accessible to affluent white people Hickey examines religious dimensions of the Mindfulness movement and clinical research about its effectiveness By treating stress related illness individualistically she argues the contemporary movement obscures the roles religious communities can play in fostering civil society and personal wellbeing and diverts attention from systemic factors fueling stress related illness including racism sexism and poverty

Manfred Macmillan Carleton Bulkin, Brian James Baer, Jirí Karásek ze Lvovic, 2024-10-16 Decadence meets gothic in Manfred Macmillan 1907 a carefully constructed tale of doppelgangers magical intrigue and the rootless scion of a noble house This annotated first ever English translation presents an early queer novel long unavailable except in the original Czech Author Ji Kar sek ze Lvovic 1871 1951 was a major cultural figure in his native Bohemia and cultivated ties with fellow artists from across Central Europe In their extensive scholarly introduction translator Carleton Bulkin and translation scholar Brian James Baer situate the novel within longer histories of gay literature fascinations with the occult and the cultural and linguistic politics of so called peripheral European nations They persuasively frame Kar sek as a queer author and cultural disruptor in the fin de si cle Habsburg space Karas k rejected Czech translations of ancient Greek writers that bowdlerized gay themes and he personally and vigorously defended Oscar Wilde in print both on the grounds of artistic freedom and of private morality He also published a cycle of homoerotic poems under the title Sodom confiscated by the Austrian authorities but republished in 1905 and repeatedly afterward A colonized subject a literary decadent and a sexual outlaw Karas k s complex responses to his own marginalization can be traced through his fantastically strange novel trilogy Three Magicians As the first volume in that series Manfred Macmillan is a gorgeous compelling and important addition to expanding canons of LGBTQI literature *The New Principia* Dr. John Yates, 2018-12-04 The New Principia Book 1 deals with the start of the New Principia important scientific work related to questions such as How to find God How to travel in Time Travels in Outer Space plus Resolving the Andromeda Paradox and more with proper explanations and some working methods for handling Ouija Boards Near Death Experiences Astral Projection Hypnosis Consciousness Super intelligent Machines and others With The New Principia the sky is not the limit **Reimagining God and Resacralisation** Alexa Blonner, 2019-05-14 This book

shows that widespread resacralisation has been taking place which is producing new ways of perceiving God and the divine. The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world. There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism but this process of secularisation has yet to occur as predicted. The book begins by contrasting theories of secularisation and resacralisation. Throughout the book conceptual threads or new religious themes related to this resacralisation are discussed in terms of three main categories: reimagining God's nature, substance and location; reimagining human value and purpose; and reimagining modes of redemption. Finally, the book considers how these threads are moving in various different directions and what the religious future might hold. This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies, new religious movements and the sociology of religion.
