Travel Yuichi Yokoyama, 2008 Three men board a train and walk through it until they find seats then ride through changing scenery until they reach their destination a waterfront The point of the book is Yokoyama's outlandish hyperstylized designs for characters architecture and landscapes Everything and everyone is abstracted until nothing is left but a few identifying features some sequences as when the train passes through a rain shower are almost pure pattern Publisher's Weekly

cloth books woodcut novels graphic novels and more **On the Edge of the Panel** Julio Cañero, Esther Claudio, 2015-09-04 To create a comic is not to illustrate words but to create narrative diagrams and transform strokes into imaging words The infinite array of possibilities that the merging of text and pictures provides is a garden of forking paths that critics have just started to explore This is an art that operates as the crossroads of various disciplines but whose specifications require a thorough understanding of its unique mechanisms The explosion of experimental works and the incorporation of previously marginal or nonexistent genres and themes in comics have enriched an already fruitful art in ways that continue to surprise both readers and critics This collection of essays offers a space of reflection on the cultural social historical and ideological dimensions of comics With this in the background the book focuses on three main areas the origins and definitions of comics the formal tools of the medium and authors and their works The historical and formal approach to comics as shown here is still essential and the debate about the origins and definition is still present but two thirds of this collection formulate other treatments that scholars had not started to tackle until recently Does this mean that the study of comics has finally reached the necessary confidence to abandon the artistic legitimization of the medium Or are they just new self defense mechanisms through alliances with other fields of academic interest This book will add to the debate on comics as did the international conference that led to it It provides a channel of communication with an art a two headed medium that like the god Janus operates as a hinge as a meeting point as a bridge between pictorial and literary expression **Spaces of Possibility** Clark W. Sorensen, Andrea Gevurtz Arai, 2016-07-01 Spaces of Possibility which arose from a 2012 conference held at the University of Washington s Simpson Center for the Humanities engages with spaces in between and beyond the national borders of Japan and Korea Some of these spaces involve the ambiguous longings and aesthetic refigurings of the past in the present the social possibilities that emerge out of the seemingly impossible new spaces of development the opportunities of genre and spaces of new ethical subjectivities Museums colonial remains new architectural spaces graffiti street theater popular song recent movies photographic topography and translated literature all serve as keys for unlocking the ambiguous and contradictory yet powerful emotions of spaces whether in Tokyo Seoul or New York *The Cambridge History of the Graphic Novel* Jan Baetens, Hugo Frey, Stephen E. Tabachnick, 2018-07-19 The Cambridge History of the Graphic Novel provides the complete history of the graphic novel from its origins in the nineteenth century to its rise and startling success in the twentieth and twenty first century It includes original discussion on the current state of the graphic novel and analyzes how American European Middle Eastern and Japanese renditions have shaped the field Thirty five leading scholars and historians unpack both forgotten trajectories as well as the famous key episodes and explain how comics transitioned from being marketed as children s entertainment Essays address the masters of the form including Art Spiegelman Alan Moore and Marjane Satrapi and reflect on their publishing history as well as their social and political effects This ambitious history offers an extensive detailed and expansive scholarly account of the graphic novel and will be a key resource for scholars and

students **Towards Non-Unidisciplinary Research in European Studies** Andreas Moberg, 2025-07-21 This book not only defines what European Studies actually mean but also considers how non unidisciplinary research could be conceptualized in this field As an alternative concept for inter cross trans and multi disciplinary studies non unidisciplinary European Studies as defined in this volume represent a conscious choice to look beyond what is normal From various disciplinary starting points the contributors step out of their discipline giving perspective to pervasive norms and actively incorporating different approaches Through this the volume analyzes the motivations to engage in non unidisciplinarity and develops new methods for European Studies *Iceland* Yuichi Yokoyama, 2017 A new surrealist tale by the creator of neo manga the critically acclaimed Yuichi Yokoyama His frenetic visual style contrasts with the taciturn pace of the story and dialogue as a group of friends wander the high latitude areas of the strange icy Far North looking for someone Readers of Yokoyama's other stories may even recognize some characters **The Comics Journal** ,2009 **The Publishers Weekly** ,2008 *Speculative Everything* Anthony Dunne, Fiona Raby, 2013-12-06 How to use design as a tool to create not only things but ideas to speculate about possible futures Today designers often focus on making technology easy to use sexy and consumable In *Speculative Everything* Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas For them design is a means of speculating about how things could be to imagine possible futures This is not the usual sort of predicting or forecasting spotting trends and extrapolating these kinds of predictions have been proven wrong again and again Instead Dunne and Raby pose what if questions that are intended to open debate and discussion about the kind of future people want and do not want *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas ideals and approaches Dunne and Raby cite examples from their own design and teaching and from other projects from fine art design architecture cinema and photography They also draw on futurology political theory the philosophy of technology and literary fiction They show us for example ideas for a solar kitchen restaurant a flypaper robotic clock a menstruation machine a cloud seeding truck a phantom limb sensation recorder and devices for food foraging that use the tools of synthetic biology Dunne and Raby contend that if we speculate more about everything reality will become more malleable The ideas freed by speculative design increase the odds of achieving desirable futures
