Security and Democracy in Southern Africa Gavin Cawthra, André Du Pisani, Abillah H. Omari, 2007 A study of the ambiguity of democratization and how it can generate violence Southern Africa has embarked on one of the world's most ambitious security co-operation initiatives seeking to roll out the principles of the United Nations at regional levels This book examines the triangular relationship between democratization the character of democracy and its deficits and national security practices and perceptions of eleven southern African states Based on national studies conducted by African academics and security practitioners over three years it includes an examination of the way security is conceived and managed as well as a comparative analysis of regional security co-operation in the developing world The study concludes that democratization is ambiguous and uncertain and can in some cases generate violent conflict Building a common security regime in southern Africa will require moving beyond regime solidarity In particular progress will mean building multinational institutions entrenching democratic practices drawing on civil society and integrating the southern African project with that of the African Union The authors conclude with a set of policy recommendations that aim to strengthen both states and civil society within the framework of an emerging common security system Civil-military Relations in Zambia

Gilbert Chileshe, 2004 *Kenya's and Zambia's Relations with China 1949-2019* Jodie Yuzhou Sun, 2023 Examines the history of post colonial Kenya's and Zambia's relations with the People's Republic of China from ideological political economic and social perspectives Africa has become a major platform from which to analyse and understand China's growing influence in the global South Yet the impact of their historical relationship has been largely overlooked Through the triangulation of the global Cold War African history and Chinese history this study provides a detailed analysis of China Africa relations in the second half of the 20th century Examining the encounters conflicts and dynamics of China Kenya Zambia relations from the 1950s until the present as well as the basis on which historical narratives have been constructed the book presents two contrasting state perspectives underlining the concept of African agency Driven by a class based analysis of world revolution Communist China's foreign policy did not distinguish significantly between Kenya and Zambia Both countries sought ideological and material support from China in the years after their independence The Kenya African National Union under both Jomo Kenyatta and Daniel Moi pursued a consistently pragmatic foreign agenda and despite political tensions and ideological rifts with China since the mid 1960s Sino Kenyan trade has continued to grow steadily In contrast China Zambia relations under Kenneth Kaunda were cordial despite their political differences Zambian leaders maintained a relatively high consensus that any alleged Chinese Communist threat would not be allowed to fuel power struggles within their United National Independence Party Challenging both the widely accepted role of China Africa's historical lineage as well as the tendency to assume uniformity in China's relationships across the continent the author explains the development of these relationships and sheds light on the historical underpinnings or lack thereof on

contemporary China Africa relations
