schools and communities While many studies have focused on this change and its impact in politics school and classroom relatively few have focused on how teachers and educators have fared Sitting between the new policies and school demographics teachers and educators have shaped the policy in their engagements The study of life trajectories shows that the lines between religion and religious education are blurred in personal life histories and that positions can shift due to personal and contextual developments They point to the innovative and unexpected turns that individuals trace in their personal life journeys This book reminds us that we need to pay more attention to the teachers principals managers and public intellectuals who shape and are shaped by the changing context of religion and religious education This book was originally published as a special issue of Religion Education *History Education in Africa* Gideon Boadu, Charles Adabo Oppong, 2024-07-12 This collection brings together African scholars in Africa and the diaspora to contribute to scholarly debates about critical issues in history teaching and learning in African schools The book contributes to filling the gap in knowledge on African history associated pedagogies and practices and its consequent effects on research and the declining popularity of history in African Schools Specifically the volume a examines current trends and practices in history education in African schools b unveils the challenges and subtleties of teaching the next generation of teachers and students and c examines classroom practices and opportunities for engagement with historical concepts in African schools The book adds a much needed African voice to the international history education literature and contribute to strengthening the place of history teaching and learning in Africa Recruiting, Retaining, and Retraining Secondary School Teachers and Principals in Sub-Saharan Africa , 2007-01-01 This working paper is based on country case studies of Ethiopia Ghana Guinea Madagascar Tanzania and Uganda and an extensive literature review In many parts of Africa the demand for secondary teachers substantially exceeds the supply due to factors such as secondary teacher attrition bottlenecks in the teacher preparation system and perceived unattractive conditions of service Few countries have strong policies strategies and programs for recruiting able secondary school graduates to secondary teaching The paper suggests several critical and promising areas for improvement in th Departments of State, Justice, and Commerce, the Judiciary, and Related Agencies Appropriations for Fiscal Year 1969 United States.
