Zen Ritual Studies Of Zen Buddhist Theory In Practice:

Zen Ritual Steven Heine, Dale S. Wright, 2007-11-14 When books about Zen Buddhism began appearing in Western languages just over a half century ago there was no interest whatsoever in the role of ritual in Zen. Indeed, what attracted Western readers' interest was the Zen rejection of ritual. The famous Beat Zen writers were delighted by the Zen emphasis on spontaneity as opposed to planned, repetitious action and wrote inspirationally about the demythologized, anti-ritualized spirit of Zen. Quotes from the great Zen masters supported this understanding of Zen and led to the fervor that fueled the opening of Zen centers throughout the West. Once Western practitioners in these centers began to practice Zen seriously, however, they discovered that *zazen* (Zen meditation) is a ritualized practice supported by centuries-old ritual practices of East Asia. Although initially in tension with the popular anti-ritual image of ancient Zen masters, interest in Zen ritual has increased along with awareness of its fundamental role in the spirit of Zen. Eventually, Zen practitioners would form the idea of *no mind* or the open and awakened state of mind in which ingrained habits of thinking give way to more receptive, direct forms of experience. This notion provides a perspective from which ritual could gain enormous respect as a vehicle to spiritual awakening, and thus this volume seeks to emphasize the significance of ritual in Zen practice. Containing 9 articles by prominent scholars about a variety of topics including Zen rituals, *kinhin* and *zazen*, this volume covers rituals from the early Chan period to modern Japan. Each chapter covers key developments that occurred in the Linji, Rinzai, and Caodong Soto schools of China and Japan, describing how Zen rituals mold the lives and characters of its practitioners, shaping them in accordance with the ideal of Zen awakening. This volume is a significant step towards placing these practices in a larger historical and analytical perspective.

Zen Ritual Steven Heine, Dale Stuart Wright, 2008 Written by prominent scholars, this text covers rituals from the early Chan period to modern Japan and key developments that occurred in the Linji, Rinzai, and Caodong Soto schools. It describes how rituals mould the lives of its practitioners in accordance with the ideal of Zen awakening.

The Theory and Practice of Zen Buddhism Charles S. Prebish, On-cho Ng, 2022-02-15 This book brings together an impressive group of scholars to critically engage with a wide-ranging and broad perspective on the historical and contemporary phenomenon of Zen. The structure of the work is organized to reflect the root and branches of Zen, with the root referring to important episodes in Chan/Zen history within the Asian context and the branches referring to more recent development in the West. In collating what has transpired in the last several decades of Chan/Zen scholarship, the collection recognizes and honors the scholarly accomplishments and influences of Steven Heine, arguably the most important Zen scholar in the past three decades. As it looks back at the intellectual horizons that this towering figure in Zen/Chan studies has pioneered and developed, it seeks to build on the grounds that were broken and subsequently established by Heine, thereby engendering new works within this enormously important religious/cultural scholarly tradition. This curated *Festschrift* is a tribute both retrospective and prospective, acknowledging the foundational work that Heine has forged and generates.

research that is both complementary and highly original This academic ritual of assembling a liber amicorum is based on the presumption that sterling scholarship should be honored by conscientious scholarship In the festive spirit of a Festschrift this anthology consists of the resounding voices of Heine and his colleagues It is an indispensable collection for students and scholars interested in Japanese religion and Chinese culture and for those researching Zen Buddhist history and philosophy

Bringing Zen Home Paula Arai, 2011-09-30 Healing lies at the heart of Zen in the home as Paula Arai discovered in her pioneering research on the ritual lives of Zen Buddhist laywomen She reveals a vital stream of religious practice that flourishes outside the bounds of formal institutions through sacred rites that women develop and transmit to one another Everyday objects and common materials are used in inventive ways For example polishing cloths vivified by prayer and mantra recitation become potent tools The creation of beauty through the arts of tea ceremony calligraphy poetry and flower arrangement become rites of healing Bringing Zen Home brings a fresh perspective to Zen scholarship by uncovering a previously unrecognized but nonetheless vibrant strand of lay practice The creativity of domestic Zen is evident in the ritual activities that women fashion weaving tradition and innovation to gain a sense of wholeness and balance in the midst of illness loss and anguish Their rituals include chanting ingesting elixirs and consecrated substances and contemplative approaches that elevate cleaning cooking child rearing and caring for the sick and dying into spiritual disciplines Creating beauty is central to domestic Zen and figures prominently in Arai s analyses She also discovers a novel application of the concept of Buddha nature as the women honor deceased loved ones as personal Buddhas One of the hallmarks of the study is its longitudinal nature spanning fourteen years of fieldwork Arai developed a second person or

relational approach to ethnographic research prompted by recent trends in psychobiology This allowed her to cultivate relationships of trust and mutual vulnerability over many years to inquire into not only the practices but also their ongoing and changing roles The women in her study entrusted her with their life stories personal reflections and religious insights yielding an ethnography rich in descriptive and narrative detail as well as nuanced explorations of the experiential dimensions and effects of rituals In *Bringing Zen Home* the first study of the ritual lives of Zen laywomen Arai applies a cutting edge ethnographic method to reveal a thriving domain of religious practice Her work represents an important contribution on a number of fronts to Zen studies ritual studies scholarship on women and religion and the cross cultural study of healing

The Power of Patriarchs Elizabeth Morrison, 2010-03-25 The Chan monk Qisong 1007-1072 an important figure in Northern Song religious and intellectual history has garnered relatively little scholarly attention This book provides a detailed biography with a focus on the influential historical writings he composed to defend Chan claims of a mind to mind transmission tracing back to the historical Buddha It places his defense of lineage in the context not only of attacks by the rival Tiantai school but also of the larger backdrop of the development of lineage and patriarchs as sources of authority in Chinese Buddhism It advances new arguments about these Chinese Buddhist innovations challenges common assumptions about Chan masters and offers insights into the interactions of Buddhists Confucians and the imperial court during the Song

Thriving in Crisis Dewei Zhang, 2020-05-19 Late imperial Chinese Buddhism was long dismissed as having declined from the glories of Buddhism during the Sui and Tang dynasties 581-907 In recent scholarship a more nuanced picture of late Ming era Buddhist renewal has emerged Yet this alternate conception of the history of Buddhism in China has tended to focus on either doctrinal contributions of individual masters or the roles of local elites in Jiangnan leaving unsolved broader questions regarding the dynamics and mechanism behind the evolution of Buddhism into the renewal *Thriving in Crisis* is a systematic study of the late Ming Buddhist renewal with a focus on the religious and political factors that enabled it to happen Dewei Zhang explores the history of the boom in enthusiasm for Buddhism in the Jiajing-Wanli era 1522-1620 tracing a pattern of advances and retrenchment at different social levels in varied regions He reveals that the Buddhist renewal was a dynamic movement that engaged a wide swath of elites from emperors and empress dowagers to eunuchs and scholar officials Drawing on a range of evidence and approaches Zhang contends that the late Ming renewal was a politically driven exception to a longer term current of disfavor toward Buddhism and that it failed to establish Buddhism on a foundation solid enough for its future development A groundbreaking interdisciplinary study *Thriving in Crisis* provides a new theoretical framework for understanding the patterns of Buddhist history in China
