Troubling Sex Troubling Sex:

Troubling Sex Elaine Craig, 2012-07-01 When legal scholars or judges approach the subject of sexuality they are often constrained by existing theoretical frameworks For instance queer theorists typically focus on sexual liberty but tend not to consider issues such as sexual violence Feminist theories focus on violence but often don't give recognition to the joy of sexuality To assess the possibility of devising a legal theory of sexuality that can ensure equality without assimilation diversity without exclusion and liberty without suffering Elaine Craig examines the Supreme Court of Canada's approach to sexuality in cases that range from sexual violence to discrimination based on orientation Although the Court continues to hold an essentialist understanding of sexuality that renders certain harms invisible its feminist inspired approach to sexual violence recognizes the socially constructed nature of sexuality and produces legal reasoning that promotes sexual integrity as a common interest Blending feminist theory with the inclusiveness of queer theory Craig advances an iconoclastic approach to law and sexuality that has the power to transform both theory and practice Troubling Intersections of Race and Sexuality Kevin K. Kumashiro, 2001 In recent years researchers have considerably expanded our understanding of the experiences of students of color and of students who are gay lesbian bisexual transgendered and questioning ie Queer They have provided us with rich resources for addressing racism and heterosexism however few have examined the unique experiences of students who are both queer and of color and few have examined the heterosexist or white centered nature of anti racist or anti heterosexist education respectively What of the students and educators who live and teach at the intersection of race and sexuality By combining autobiographical accounts with qualitative and quantitative research on queer students of different racial backgrounds these essays not only trouble the ways we think about the intersections of race and sexuality they also offer theoretical insights and educational strategies to educators committed to bringing about change **Troubling the Teaching and Learning of Gender and Sexuality Diversity in South African Education** Dennis A. Francis, 2016-11-18 In this book Francis highlights the tension between inclusion and sexual orientation using this tension as an entry to explore how LGB youth experience schooling Drawing on research with teachers and LGB youth this book troubles the teaching and learning of sexuality diversity and by doing so provides a critical exploration and analysis of how curriculum pedagogy and policy reproduces compulsory heterosexuality in schools The book makes visible the challenges of teaching sexuality diversity in South African schools while highlighting its potential for rethinking conceptions of the social and cultural representations thereof Francis links questions of policy and practice to wider issues of society sexuality social justice and highlights its implications for teaching and learning The author encourages policy makers teachers and scholars of sexualities and education to develop further questions and informed action to challenge heteronormativity and heterosexism *Sexual Boundary Trouble in Psychoanalysis* Charles Levin, 2020-10-05 Inspired by the clinical and ethical contributions of Muriel Dimen 1942 2016 a prominent feminist anthropologist and relational

The Trouble with Normal Michael Warner,2000 Michael Warner one of our most brilliant social critics argues that gay marriage and other moves toward normalcy are bad not just for the gays but for everyone In place of sexual status quo Warner offers a vision of true sexual autonomy that will forever change the way we think about sex shame and identity

The Trouble with Normal Mary Louise Adams,1997-01-01 In the years after the Second World War economic and social factors combined to produce an intense concern over the sexual development and behaviour of young people In a context where heterosexuality and normality were understood to be synonymous and assumed to be necessary for social and national stability teenagers were the target of a range of materials and practices meant to turn young people into proper heterosexuals In this study Mary Louise Adams explores discourses about youth and their place in the production and reproduction of heterosexual norms She examines debates over juvenile delinquency indecent literature and sex education to show not why heterosexuality became a peculiar obsession in English Canada following the Second World War as much as how it came to hold such sway Drawing on feminist theory cultural studies and lesbian gay studies *The Trouble with Normal* is the first Canadian study of youth as a sexual and moral category Adams looks not only at sexual material aimed at teenagers but also at sexual discourses generally for what they had to say about young people and for the ways in which youth as a concept made those discourses work She argues that postwar insecurities about young people narrowed the sexual possibilities of both young people and adults While much of the recent history of sexuality examines sexuality from the margins *The Trouble with Normal* is firmly committed to examining the centre to unpacking normality itself As the first book length study of the history of sexuality in postwar Canada it will make an important contribution to the growing international literature on sexual regulation

Girls in Trouble with the Law Laurie Schaffner,2006 Juvenile arrest rates in the United States have declined over the past decade yet the percentage of girls in trouble with the law increased Girls now enter the juvenile legal system for violent offenses in addition to minor violations for which previous generations of young women have always been detained In *Girls in Trouble with the Law* sociologist Laurie Schaffner takes us inside female detention centers and explores the worlds of those who are incarcerated Across the country she finds t

On the Nature of Human Sexual Difference: A Symposium Timothy Paul Fortin,2024-11-05 This work offers a symposium on the nature of human sexual

difference drawing on Plato's masterpiece having explored the observed phenomena of sexual difference four stories are told of the origins essence and ends of the human male and female First the evolutionists and then Simone de Beauvoir and Judith Butler present their accounts Next a fourth and unique vision for our age is added the thought of Thomas Aquinas is placed in dialogue with the evolutionists Beauvoir and Butler thereby introducing into contemporary discourse a voice that is both ancient and new The work seeks to trace each protagonist's account to its fonts so providing a perspective from which various streams of thought might be understood both in their divergence and common origins It thus hopes to offer a common language and an interpretive key in a realm where confusion and misunderstanding too often reign School

Trouble Deborah Youdell, 2010-11 This book sets out a series of possible approaches to pursuing social justice in and through educational settings It identifies a series of key features of the contemporary political theoretical and popular landscape in relation to school practice **Good Trouble** Brian Wolf, 2019-05-24 This book is written in praise of the criminal a unique

kind of criminal who is motivated not by personal gain but ethical altruism Deviant heroes are those individuals who violate unjust norms and laws facing the repercussions of social control effecting positive social change in the process Using a method that examines how the biographies of individual deviants intersected with history it probes how criminals and deviants have been on the leading edge of important positive social changes and the creation of a more just fair and humane society Brian Wolf concludes with an examination of the problem of conformity and how deviant heroism in everyday life may be a remedy for injustice in micro level social contexts The Deconstruction of Sex Jean-Luc Nancy, Irving Goh, 2021-09-03

In The Deconstruction of Sex Jean-Luc Nancy and Irving Goh discuss how a deconstructive approach to sex helps us negotiate discourses about sex and foster a better understanding of how sex complicates our everyday existence in the age of MeToo Throughout their conversation Nancy and Goh engage with topics ranging from relation penetration and subjection to touch erotics and jouissance They show how despite its entrenchment in social norms and centrality to our being in the world sex lacks a clearly defined essence At the same time they point to the potentiality of literature to inscribe the senses of sex In so doing Nancy and Goh prompt us to reconsider our relations with ourselves and others through sex in more sensitive respectful and humble ways without bracketing the troubling aspects of sex *Understanding, Assessing, and Rehabilitating*
