Truth And Method Continuum Impacts:

EPZ Truth and Method Hans-Georg Gadamer, 2004-12-07 Written in the 1960s TRUTH AND METHOD is Gadamer's magnum opus. Looking behind the self-consciousness of science, he discusses the tense relationship between truth and methodology. In examining the different experiences of truth, he aims to present the hermeneutic phenomenon in its fullest extent.

Truth and Method Hans-Georg Gadamer, 2013-06-27 Truth and Method is a landmark work of 20th-century thought which established Hans Georg Gadamer as one of the most important philosophical voices of the 20th Century. In this book, Gadamer established the field of philosophical hermeneutics, exploring the nature of knowledge. The book rejected traditional quasi-scientific approaches to establishing cultural meaning that were prevalent after the war. In arguing the truth and method acted in opposition to each other, Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding. It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jürgen Habermas and many others.

Exegesis and History of Reception Régis Burnet, 2021-01-26 Why should we take into account the history of reception in biblical methods? It is because as exegetes we have no choice. Recognizing our dependence on interpretations of the past is not a new method, but it is the very way we understand texts. Régis Burnet shows how this allows us to put our current interpretations into perspective, but also to dialogue with those of the past.

Ecclesial Identification Beyond Late Modern Individualism? Karl Inge Tangen, 2012-03-06 Why do people identify with growing late modern churches, and does identification lead to morally transforming commitments beyond late modern consumerism? This case study presents findings that may inspire both social scientists and theological practitioners to new forms of thinking.

Convictions, Conflict, and Moral Reasoning David J. McMillan, 2021-12-14 The primary focus of this volume is to bring to the fore the contribution of McClendon and Smith's work on convictions and the application of that work in helping understand the processes of moral reasoning in the context of conflict. Both were indebted to Zuurdeeg, and their concept was incorporated in models of moral reasoning by Baptist scholars Glen Stassen and Parush Parushev. The usefulness of the concept is critically evaluated. The volume concludes with a case study on the conflict in Northern Ireland, including the role of religion and the key issues raised in the referendum on the Belfast Agreement in 1998. It includes an examination of the contribution of four Christian groups in Northern Ireland who publicly engaged in this six-week period of intense and passionate debate on the Agreement and the difficult issues it addressed as the focus for examining and testing the application of the model of moral reasoning. On the basis of the case study, it is demonstrated that the concept of convictions can prove to be a helpful means of getting to the heart of what drives moral reasoning in contexts of conflict. The purpose of this book is to issue a call to engage with critique and consider the importance and application of a much undervalued methodological approach to discerning the convictions that are the primary influencers of thought and action.

Weighing Interpretations in Science, Biblical Studies, and Life Matthew B. Joss, 2023-06-05 Conflicting narratives beat upon us everywhere in politics religion and even science One person s conspiracy theory seems to be another s self evident truth But how are we to decide what makes one interpretation of the world better than another Weighing Interpretations in Science Biblical Studies and Life The Quest for the Best Explanation argues that theories and interpretations are trying to explain the world and hence the better theory is the one that better explains the data of the world But this raises questions What is an explanation How are we to rank them What kind of inference allows us to find and reason about these explanations This book provides a full description of this Inference to Best Explanation IBE and shows how IBE is at work in science Biblical studies and even

Out of Sight, Into Mind Jed Forman,2024-12-31 Most Indian and Tibetan religious traditions have some theory of yogic perception a profound type of sentience afforded by meditative practice And most consider it the bedrock of their religious authority the primary means by which one gains spiritual insight Disagreements about what yogis perceive abound however spanning many philosophical topics including epistemology ontology phenomenology and language Out of Sight Into Mind is a groundbreaking exploration of debates over yogic perception revealing their contemporary relevance as a catalyst for comparative philosophy Jed Forman examines intellectual and philosophical developments over a millennium in India and Tibet offering rich analyses of many previously untranslated texts He traces divergences and confluences between thinkers within and across traditions demonstrating that accounts of yogic perception shifted from theories based on vision to ones based on the mind Drawing on this investigation Forman calls for broadening philosophical discourse arguing that subjects like yogic perception have often been deemed religious and thus neglected He contends that these Indian and Tibetan debates hold important lessons for present day topics such as hermeneutics and exegesis the relationship between conception and perception representationalism versus phenomenism and the limits of language Shedding new light on the intellectual history of yogic perception this book models how a comparative approach can yield novel philosophical insights

Evoking Story for Transformation Lyn Nixon,2025-08-21 Lyn Nixon takes a fresh approach to the question of whether New Testament authors quote the Old Testament without regard to the original Old Testament meaning that is out of context Her action model uses Speech Act Theory to examine the way authors and readers together contribute to the communication of meaning In her model for meaning to be successfully communicated the reader must experience the transformation intended by the author Lyn Nixon applies her theoretical model to two examples of New Testament quotation where previous scholars have claimed the author quotes the Old Testament in a way that does not correspond to the original meaning Her case studies the use of Ps 115 1 LXX in 2 Cor 4 13 and of Ps 110 1 MT by various New Testament speakers and authors provide new insights into ways that the Old Testament meaning including its transformative intention resonates in the quoting of New Testament texts

We Are Who We Think We Were Aaron D. Conley,2013-08-01 Conley calls into question the outdated historical methodologies in use in Christian social ethics and outlines the consequences stemming from them By adopting the postmodern post structuralist position of historian Elizabeth Clark Conley calls ethicists to learn to read for the gaps silences and aporias existent in historical texts as well as in the histories represented by them The book calls ethicists to a critical self reflexive historiography This self criticism allows the ability to construct new histories and formulate new ethical norms for the world in which we now live

Ramanuja and Schleiermacher Jon Paul Sydnor,2012-03-29 Can the comparison of two theologians vastly separated in space and time help contemporary theologians to think better This book compares two preeminent theologians Sri Ramanuja of the Hindu tradition and Friedrich Schleiermacher of the Christian tradition Each argues that God sustains the universe at

every moment of its existence but they work out the divine sustenance in very different ways *God is Green* Bob Shore-Goss, 2016-10-28 At this time of climate crisis here is a practical Christian ecospirituality It emerges from the pastoral and theological experience of Reverend Robert Shore Goss who worked with his congregation by making the earth a member of the church by greening worship and by helping the church building and operations attain a carbon neutral footprint Shore Goss explores an ecospirituality grounded in incarnational compassion Practicing incarnational compassion means following the lived praxis of Jesus and the commission of the risen Christ as Gardener Jesus becomes the green face of God Restrictive Christian spiritualities that exclude the earth as an original blessing of God must expand This expansion leads to the realization that the incarnation of Christ has deep roots in the earth and the fleshly or biological tissue of life This book aims to foster ecological conversation in churches and outlines the following practices for congregations meditating on nature inviting sermons on green topics covenanting with the earth and retrieving the natural elements of the sacraments These practices help us recover ourselves as fleshly members of the earth and the network of life If we fall in love with God s creation says Shore Goss we will fight against climate change Hermeneutics and Phenomenology in Paul Ricoeur Scott Davidson, Marc-Antoine Vallée, 2016-07-06 Hermeneutics and Phenomenology in Paul Ricoeur Between Text and Phenomenon calls attention to the dynamic interaction that takes place between hermeneutics and phenomenology in Ricoeur s thought It could be said that Ricoeur s thought is placed under a twofold demand between the rigor of the text and the requirements of the phenomenon The rigor of the text calls for fidelity to what the text actually says while the requirement of the phenomenon is established by the Husserlian call to return to the things themselves These two demands are interwoven insofar as there is a hermeneutic component of the phenomenological attempt to go beyond the surface of things to their deeper meaning just as there is a phenomenological component of the hermeneutic attempt to establish a critical distance toward the world to which we belong For this reason Ricoeur s thought involves a back and forth movement between the text and the phenomenon Although this double movement was a theme of many of Ricoeur s essays in the middle of his career the essays in this book suggest that hermeneutic phenomenology remains implicit throughout his work The chapters aim to highlight in much greater detail how this back and forth movement between phenomenology and hermeneutics takes place with respect to many important philosophical themes including the experience of the body history language memory personal identity and intersubjectivity
