What Factors Affect College Tuition? Carol Frances, 1990 This report analyzes both the trends in college tuition paid by students and the trends in higher education costs paid by institutions and offers insights into the relationships between them Data are presented to show that the annual rate of increase in college tuition has dropped significantly since the early 1980s A four factor model is presented to explain upward and downward pressures in total college tuition revenues the model includes changes in enrollment costs share of total costs covered by student tuition and resources invested The report examines the legitimacy of comparing trends in college tuition with the Consumer Price Index and the Higher Education Price Index The report then discusses 1 the costs of particular goods and services purchased by colleges and universities 2 trends in faculty and staff salaries and efforts to hold down compensation costs 3 state higher education appropriations 4 shortfalls in federal student aid funding and 5 shortfalls in funding for research The final two chapters fit tuition into the larger picture of college and university finance and analyze the outlook for college costs and college tuition in the 1990s Forty six charts illustrate the findings and are documented in the appendix by tables of data JDD

Language and the Knowledge Economy Josep Soler, Kathrin Kaufhold, 2025-02-28 This volume offers a holistic understanding of the interconnections of language specifically English scholarly publishing and knowledge production and circulation through a sociolinguistic lens in contemporary academia across different European settings for research purposes The volume is organised around three parts the first part explores individual factors underpinning knowledge production and their role in shaping scholars academic careers the second part critically reflects on the challenges and opportunities for multilingual scholars in the academic landscape examining the inherent tensions in the interactions between English and other languages the final part considers the ways in which academic knowledge is institutionalised at universities private companies and on a national scale

and the subsequent impact on knowledge dissemination Taken together the chapters provide a coherent and holistic overview of the affordances and limitations that different social actors experience when participating in such cycles including the different modes of access to resources across geographic contexts and disciplinary traditions An important contribution of the volume is the multilayered angle that it incorporates into analysing issues of scholarly publishing in today's academia placing language as a social practice at the heart of the structuring processes that condition the creation dissemination and consumption of knowledge in contemporary societies This book will be of interest to scholars in English for research and publication purposes sociolinguistics language and education and applied linguistics
