Turken Marokkanen Nederlanders Een Cursus Voor Dienstverleners:

Turken, Marokkanen, Nederlanders, 1984 *Cultuur & Lichaam* Paul Voestermans, Theo Verheggen, 2007-05-21 I was deeply impressed by this book It is a fresh and original analysis of cultural psychology there is nothing like this on the market the argument is so clear and the material so well constructed that one can't help but argue with the authors at the same time as one is urging them on In one fell swoop they take on the trend to evolutionary psychology the worst of social psychology integrate little known facts with the better known make a plea for the centrality of the body and a practice orientation to psychology explain religious tolerance and intolerance add aging to the mix and come out with a coherent picture of the relation between culture and psychology Brilliant really Professor Henderikus Stam University of Calgary The book is in one word a gem Compared to the many books in the cultural studies field this book reaches far deeper and higher Tom ter Bogt professor Music and Youth Culture Utrecht University The book is written in a lively stimulating provocative style It draws on a wide variety of disciplines apart from psychology sociology anthropology history religious studies philosophy etc as indeed any good book about culture should Indeed this multidisciplinary perspective is perhaps the book's main strength David Ingleby Professor of Intercultural Psychology Utrecht University This book presents both an innovative theoretical account of the persistence of behavioural patterns and an intriguing and detailed analysis of five central areas of cultural problem solving Both theory and empirical analysis are coherent and consistent and complicated issues usually are clarified by many well chosen examples that can easily be related to current cultural themes and debates Moreover the book is written in a fluent style Ruud Abma Professor of Social Science Utrecht University *Pyttersen's nederlandse almanak*, 2008
