Turkey and the Politics of National Identity Shane Brennan, Marc Herzog, 2014-09-19 In the first decade of the twenty first century Turkey experienced an extraordinary set of transformations In 2001 in the midst of financial difficulties the country was under IMF stewardship yet it has recently emerged as one of the fastest growing economies in the world And on the international stage Turkey has managed to enhance its position from being a backseat NATO member and outside candidate for EU membership to being an influential regional power determining and developing its own individual foreign policy Shane Brennan and Marc Herzog explore how these and other changes have shaped the way people in Turkey perceive themselves and how the country's self image shapes its actions In the modern age the sovereign nation state still continues to be one of the basic building blocks of social or political identity The Turkish Republic founded in 1923 is a good example In weaving together and selecting certain elements of memory myth tradition and symbols the narratives of national identity in Turkey have been to a large extent socially constructed This volume offers analysis of the ways in which these narratives have been created maintained and negotiated and how current economic and political interests have been incorporated into the construction of a modern identity External forces such as those of cultural and economic globalisation have also been influential agents in this process As a result the space and opportunity for social and cultural expression has increasingly widened while alternative identities and life style choices at both the collective and individual levels have also become more visible Bearing this in mind this book examines issues such as those of alternative gender identity and sexual orientation formerly taboo issues Through different approaches engaging with politics economy society culture and history Turkey and the Politics of National Identity offers new perspectives on the transformation of

national identity in this increasingly influential country in the Middle East Regional Cooperation in the South Caucasus Tracey German, 2016-04-08 The South Caucasus region comprising the former Soviet states of Armenia Azerbaijan and Georgia occupies a key strategic location squeezed between the Black and Caspian Seas Iran Russia and Turkey Since the disintegration of the Soviet Union in 1991 the region has become an arena of geopolitical confrontation with regional powers such as Russia Turkey and Iran vying for influence in the face of growing Western involvement The Russian military intervention in Georgia in 2008 not only raised questions about Moscow's intentions towards its Near Abroad and the future direction of its foreign policy it also demonstrated that ostensibly local separatist disputes have serious ramifications for regional relations and the wider international community In this book German explores the extent of regional cooperation in the South Caucasus analyses the reasons for the relative lack of regional cooperation and assesses the potential for deeper cooperation in the future **The Middle East** Ellen Lust, 2016-04-25 In the Fourteenth Edition of The Middle East Ellen Lust brings important new coverage to this comprehensive balanced and superbly researched text In clear prose Lust and her outstanding contributors explain the many complex changes taking place across the region New to this edition is a country profile chapter on Sudan by Fareed Hassan All country chapters now address domestic and regional conflict more explicitly and all tables figures boxes and maps have been fully updated with the most recent data and information LADY WHO JOAN KIM ERKAN , **The Turks in World History** Carter V.
