When I had 300 models I computerized my records and crated the first version of this list. That was years ago. Breyer had added thousands of new models and hundreds of new molds. New and old companies have come and gone or changed names. I'm always looking for more information, especially for companies and models not listed in this book. Detail start to escape me was that the bay with 3 socks and black hooves or the bay with 3 socks and pink hooves or the bay with 4 socks version. There is just too much information to remember. I'm an avid collector. When I first started in the hobby there were no books available just box catalogs. This book is meant to be a record of YOUR collection. It is meant to be written in. You can mark if you own it or just want it. You can even write in a name for your model under the notes section. See you at Breyerfest. *Popular Mechanics*, 1994-07 Popular Mechanics inspires, instructs and influences readers to help them master the modern world.
