A Thematic Access-Oriented Bibliography of Jesus's Resurrection Michael J. Alter, 2019-12-31 The keystone of Christianity is Jesus's physical bodily resurrection Present day scholars can be significantly challenged as they forage through voluminous documents on the resurrection of Jesus The literature measures well over seven thousand sources in English language books alone This makes finding specific sources that are most relevant for specific scholarly purposes an arduous task Even when a specific book is relevant finding the parts of the book that are most relevant to the resurrection rather than other topics often requires additional effort A Thematic Access Oriented Bibliography of Jesus's Resurrection addresses these challenges in several ways First the bibliography organizes more than seven thousand English sources into twelve main categories and then thirty four subcategories which are designed to help you find the most relevant literature quickly and efficiently Embedded are pro and con arguments which support efficient access through brief annotations and then annotate the diversity and complexity of the field of religion by including sources that represent a diverse range of views theistic e.g Christian Jewish Muslim etc agnostic and nontheistic The objective of this bibliography is to provide convenient access to relevant sources from a variety of perspectives allowing you to browse or find the one source accurately and with ease

True Myth James W. Menzies, 2014-09-25 Each generation asks in its own way What does it mean to be human In True Myth James Menzies addresses this question by exploring myth and religion in the thinking of mythologist Joseph Campbell and Oxford don C. S. Lewis Joseph Campbell understood Christianity as comprised of mythical themes similar to those in other religious and secular myths Admitting that certain portions of the biblical record are historical he taught the theological and miraculous aspects as symbolic as stories in which the reader discovers what it means to be human today C. S. Lewis defined Christianity and being truly human as a relationship between the personal Creator and his creation mediated through faith in his son Jesus Christ In contrast to Campbell Lewis took the theological and miraculous literally Although Lewis understood how one could see symbolism and lessons for life in miraculous events he believed they were more than symbolic and indeed took place in human history Not only does Menzies consider the ways Campbell and Lewis utilize myth in answering the question for their generation but he also probes the influence and presence of myth in philosophy media ethics history literature art music and religion in a contemporary context thus helping readers consider answers for their own age
