Truth V Justice The Morality Of Truth Commissions:

Truth v. Justice Robert I. Rotberg, Dennis F. Thompson, 2010-07-01 The truth commission is an increasingly common fixture of newly democratic states with repressive or strife ridden pasts From South Africa to Haiti truth commissions are at work with varying degrees of support and success To many they are the best or only way to achieve a full accounting of crimes committed against fellow citizens and to prevent future conflict Others question whether a restorative justice that sets the guilty free that cleanses society by words alone can deter future abuses and allow victims and their families to heal Here leading philosophers lawyers social scientists and activists representing several perspectives look at the process of truth commissioning in general and in post apartheid South Africa They ask whether the truth commission as a method of seeking justice after conflict is fair moral and effective in bringing about reconciliation The authors weigh the virtues and failings of truth commissions especially the South African Truth and Reconciliation Commission in their attempt to provide restorative rather than retributive justice They examine among other issues the use of reparations as social policy and the granting of amnesty in exchange for testimony Most of the contributors praise South Africa s decision to trade due process for the kinds of truth that permit closure But they are skeptical that such revelations produce reconciliation particularly in societies that remain divided after a compromise peace with no single victor as in El Salvador Ultimately though they find the truth commission to be a worthy if imperfect instrument for societies seeking to say never again with confidence At a time when truth commissions have been proposed for Bosnia Kosovo Cyprus East Timor Cambodia Nigeria Palestine and elsewhere the authors conclusion that restorative justice provides positive gains could not be more important In addition to the editors the contributors are Amy Gutmann Rajeev Bhargava Elizabeth Kiss David A Crocker Andr du Toit Alex Boraine Dumisa Ntsebeza Lisa Kois Ronald C Slye Kent Greenawalt Sanford Levinson Martha Minow Charles S Maier Charles Villa Vicencio and Wilhelm Verwoerd

Assessing the

Long-Term Impact of Truth Commissions Anita Ferrara, 2014-09-19 In 1990 after the end of the Pinochet regime the newly elected democratic government of Chile established a Truth and Reconciliation Commission TRC to investigate and report on some of the worst human rights violations committed under the seventeen year military dictatorship The Chilean TRC was one of the first truth commissions established in the world This book examines whether and how the work of the Chilean TRC contributed to the transition to democracy in Chile and to subsequent developments in accountability and transformation in that country The book takes a long term view on the Chilean TRC asking to what extent and how the truth commission contributed to the development of the transitional justice measures that ensued and how the relationship with those subsequent developments was established over time It argues that contrary to the views and expectations of those who

considered that the Chilean TRC was of limited success that the Chilean TRC has in fact over the longer term played a key role as an enabler of justice and a means by which ethical and institutional transformation has occurred within Chile With the benefit of this historical perspective the book concludes that the impact of truth commissions in general needs to be carefully reviewed in light of the Chilean experience This book will be of great interest and use to students and scholars of conflict resolution criminal international law and comparative legal systems in Latin America *Crime, Truth and Justice* George Gilligan, John Pratt, 2013-01-11 This book analyses the production of criminological knowledge with particular reference the official inquiry It investigates the structures and processes of official discourse and the ways in which this produces knowledge on crime and justice *Truth Commissions* Onur Bakiner, 2016-01-15 Onur Bakiner evaluates the success of truth commissions in promoting political judicial and social change He argues that even when commissions produce modest change as a result of political constraints they open new avenues for human rights activism and transform public discourses on memory truth justice and reconciliation **Paths to International Justice** Marie-Bénédicte Dembour, Tobias Kelly, 2007-10-18 This volume examines how international justice can take purchase despite social conflict and political violence **Peace and Justice** Rachel Kerr, Eirin Mobekk, 2007-10-29 Taking as its starting point the post World War II tribunals at Nuremburg and Tokyo this book goes on to discuss the creation of ad hoc international tribunals in the 1990s hybrid mixed courts the International Criminal Court domestic trials Truth Commissions and traditional justice mechanisms *Journal of Moral Theology, Volume 5, Number 2* David M. Roads to Reconciliation Elin Skaar,Siri Gloppen,Astri Suhrke,2005-03-22 The past two decades have witnessed the end

of several civil wars and authoritarian regimes In a period shaped by the ideal of democratization in which more countries are emerging from deep rooted conflicts international attention is turning to the question of how societies with a grievous past face issues of accountability and reconciliation How do societies deal with a past characterized by gross human rights violations What kinds of processes judicial as well as non judicial are most likely to generate a sense of reconciliation Using an interdisciplinary approach this book provides a systematic and comparative analysis of reconciliation processes in various societies that in recent years have made a transition from authoritarian to democratic rule or from war to relative peace Revisiting case studies from Latin America Africa Europe and Asia through a lens of comparative analysis shedding new light on how societies have dealt with their violent pasts *Roads to Reconciliation* is essential reading for both scholars and practitioners concerned with human rights transitional justice or peace building

Judging State-Sponsored Violence, Imagining Political Change Bronwyn Leebaw, 2011-04-18 How should state sponsored atrocities be judged and remembered This controversial question animates contemporary debates on transitional justice and reconciliation This book reconsiders the legacies of two institutions that transformed the theory and practice of transitional justice Whereas the Nuremberg Trials exemplified the promise of legalism and international criminal justice South Africa's Truth and Reconciliation Commission promoted restorative justice and truth commissions Leebaw argues that the two frameworks share a common problem both rely on criminal justice strategies to investigate experiences of individual victims and perpetrators which undermines their critical role as responses to systematic atrocities Drawing on the work of influential transitional justice institutions and thinkers such as Judith Shklar Hannah Arendt Jos Zalaquett and Desmond Tutu Leebaw offers a new approach to thinking about the critical role of transitional justice one that emphasizes the importance of political judgment and investigations that examine complicity in and resistance to systematic atrocities

at the Hague Academy of International Law The author deals with war and the means by which international law attempts to contain and as it were humanize organized violence But the ambitions of the author go beyond the battlefield The book explores the many complex ways in which law functions to regulate warfare in theory and practice The author looks into treaties and other sources of international law but he also tries to step outside the boundaries of black letter law to deal broadly with such matters as the influence of culture in shaping the norms on war the institutions that develop those norms and work for their universal acceptance the networks of humanitarian actors in this area and the legal procedures in which the law of war and its various institutions are embedded The book demonstrates that even wars are in various ways conducted in the shadow of the law
