, Although the content of the text makes this clear the Notes section at the end of the book provides only ten pages of citations taken mostly from websites for a text of more than 380 pages The content of the book can be described succinctly as a mix of interesting explanations observations and predictions about the contemporary and future direction of politics in the Eastern Mediterranean and the Arab World supported by weak historiographical information Apparently the difference comes from the fact that Fuller has directly observed much of the past 30 40 years of Turkish history as well as that of the Muslim world so he has a large storehouse of information upon which to draw for the narrative Fuller's discussions of the relationships between Turkey and the various regional states in the process and wake of the Arab Spring upheavals is also interesting and important even if the reader can find oneself arguing against many of Fuller's interpretations Consequently Fuller devotes the last fifteen pages of the text to the subject suggested by its subtitle Leadership in the Middle East After noting the general leadership vacuum and glaring lack of real leftist political movements across the region Fuller closes by noting that the AKP's ability to communicate with other Islamic political movements in addition to its political and economic
