Political Islam and the Secular State in Turkey Evangelia Axiarlis, 2014-06-20 How safe is Turkey's liberal democracy The

rise to power in 2002 of the right leaning Islamic Justice and Development Party ignited fears in the West that Turkey could no longer be relied upon to provide a buffer against the growth of Islamic fundamentalism in the Middle East Once hailed by the West as a model of secularism and moderation in the Muslim world Turkey is now seen to be under the influence of the creeping Islamisation of the JDP or AKP as it is known in Turkey Yet to what extent has this affected the lives of Turkish citizens Evangelia Axiarlis here explores the contribution of the JDP to civil liberties and basic freedoms long suppressed by secular and statist Kemalist ideology and how this has remained unexamined despite more than a decade in government In this the first detailed study of the policies and ideology of Prime Minister Recep Tayyip Erdogan s government the author examines the extent to which the JDP has worked to improve civil life in Turkey and critically addresses whether a government built on Islamic principles can champion political reform Exploring how Islam and democracy are neither monoliths nor mutually exclusive this is a timely contribution to the wider understanding of political Islam

EU Policies in a Global Perspective Gerda Falkner, Patrick Müller, 2013-11-20 Recent decades have seen a rise in the significance of governance layers beyond the nation state and even Europe Nonetheless few efforts have been made thus far to systematically examine the EU s interaction with global policy regimes This book maps the relative importance of EU policies in the multi level global

governance system in comparison with national and global activities It provides a unique comparative analysis of the EU's capacity for projecting its policies outward Focusing on trade policy agriculture food safety competition social rights environmental policy transport migration nuclear non proliferation or financial regulation each chapter contributes to a better understanding of the EU's role in shaping global policies the mechanisms it uses and the conditions leading to success or failure The contributors comparative research highlights that policy export is a demanding phenomenon that faces severe limitations and frequently comes with drawbacks Still EU policy export played a key role in shaping the rules of the global trade regime and influenced global policy outcomes at least to a minor extent or in technical aspects in the majority of the covered policy areas Overall however this book reveals that the EU not only aims to export its policies but interacts with its global environment in a number of distinct ways including policy import and policy protection to shield it from global pressures Concluding with a comparison of all policies on the meta level and relevant policy recommendations this book will be of interest to students scholars and practitioners of European politics European public policy global governance and international relations

Designing Peace Neophytos Loizides, 2016-01-08 Why do some societies choose to adopt federal settlements in the face of acute ethnic conflict while others do not Neophytos Loizides examines how acrimoniously divided Cyprus could reunify by adopting a federal and consociational arrangement inspiring similar attempts in its region Loizides asserts that institutional innovation is key in designing peace processes Analyzing power sharing in Northern Ireland the return of displaced persons in Bosnia and the preparatory mandate referendum in South Africa he shows how divided societies have implemented novel solutions despite conditions that initially seemed prohibitive Turning to Cyprus he chronicles the breakthrough that led to the exhumations of the missing after 2003 and observes that a society's choice of narratives and institutions can overcome structural constraints While Loizides points to the relative absence of successful federal and consociational arrangements among societies evolving from the post Ottoman space he argues that neither elites nor broader societies in the region must be held hostages to the past To effect lasting and positive change Loizides encourages stakeholders in divided societies to be prepared to identify redesign and implement innovative new institutions Examining successful peace mediations and identifying the shared experience and commonalities between Cyprus and other divided societies promises not only to inform the tackling of the Cyprus problem but also to provide transferable knowledge with broader implications for the fields of peace studies and conflict resolution

Civil Society in the Global South Palash Kamruzzaman, 2018-12-07 In recent years civil society has been seen as a key route for democracy promotion and solving development problems in low income countries However the very concept of civil society is deeply

rooted in European traditions and values In pursuing civil society reform in non Western countries many scholars along with well meaning international agencies and donor organisations fail to account for non Western values and historical experiences Civil Society in the Global South seeks to redress this balance by offering diverse accounts of civil society from the global South authored by scholars and researchers who are reflecting on their observations of civil society in their own countries The countries studied in the volume range from across Africa Latin America Asia and the Middle East to give a rich account of how countries from the global south conceptualise and construct civil society The book demonstrates how local conditions are often unsuited to the ideal type of civil society as delineated in Western values for instance in cases where numerous political racial and ethnic sub groups are fighting for autonomy By disentangling local contexts of countries from across the global South this book demonstrates that it is important to view civil society through the lens of local conditions rather than viewing it as something that needs to be discovered or manufactured in non Western societies Civil Society in the Global South will be particularly useful to high level students and scholars within development studies sociology anthropology social policy politics international relations and human geography
