BMW M5 James Taylor, 2015-10-26 BMW's M5 was a simple concept a production 5 Series saloon re developed for high performance by the Motorsport division The M5 was the car that really initiated the legend of the M cars from BMW the letter M had been applied to a high performance BMW as early as 1978 but

that year's M1 was an exotic supercar. It had the right image but the M1 was never going to bring in major profits. The M5 was much simpler in concept. It was and remains a production 5 Series saloon redeveloped for ultra high performance. Manufacturing costs were minimized allowing BMW to price the car more attractively and still bring in healthy profits. This new book charts the development of the M5 across five generations. For all fans of the BMW M5, this book provides essential background and is packed with the facts and details that make the M5 legend come alive. The M5 is still in production and remains the benchmark high performance saloon wherever it is sold. This is essential background reading for all BMW M5 fans and motoring enthusiasts and is superbly illustrated with 211 colour photographs. *Datsun/Nissan 280X & 300ZX*

Brian Long, 1999. The 240Z was a landmark in automotive history. By the time the first generation Z cars came to an end in 1978, everyone around the world knew the name Datsun. Here is the full story of the ZX series from the 280ZX introduced as the second generation Z car in 1978 through to the 300ZX of 1999. The 240Z and 260Z were pure sports cars but the 280ZX represented the evolution of the Z car into a Grand Tourer. This evolution continued through two generations of 300ZX and the Z became a true supercar with state of the art engineering features. This book contains a great deal of new information for enthusiasts in the West as Japanese models have been covered in detail for the first time. Photographs and other illustrations have been sourced almost exclusively from the factory and therefore illustrate the cars in original detail. *Datsun Z* also by Brian Long and *Veloce* is a complementary book.
