Thrive Brendan Brazier, 2005 In this book Brendan Brazier a successful professional athlete and renowned expert on the benefits of plant based whole foods presents the plant based whole foods diet he created for himself The major benefit of the diet is its ability to assist people in reaching and maintaining optimal health by reducing nutritional stress He credits his dietary stress reduction program for significantly increasing his performance as a professional athlete and succeeding in one of the world s most demanding sports He is the 2003 Canadian 50 kilometre Ultra Marathon Champion and consistently places near the top

at international Ironman triathlon events He lectures regularly on the benefits of plant based nutrition throughout the United States and Canada The book includes a sample meal plan and 15 whole food recipes Dr Zoltan Rona medical editor of the Encyclopedia of Natural Healing and author of the foreword to Thrive highly recommends the book I think that after reading this book you will no doubt be convinced that a plant based whole foods diet is the true future for optimal health

Wholesome Nutrition for You Ian Craig, 2016-05-12 Few people would dispute the fact that there is a bewildering array of books available on the business of eating fitness and nutrition many of them unfortunately with hidden vested interests in the food industry and singular theories But every now and again a refreshing and ethical book based on sound proven scientific principles comes onto the market which is more than just another trendy diet book Wholesome Nutrition is such a book In it nutritional therapist and exercise physiologist Ian Craig and his co author health food specialist and sports scientist Rachel Jesson cover in detail the emotive topics of nutrition and health from a scientific perspective They neatly unwrap all the jargon and pseudo mystique offering sensible practical economical everyday dietary approaches in a book that is not only enjoyable and informative to read but at the same time accessible to all South Africans who care about optimum health and the business of living life to the full And most importantly Wholesome Nutrition stresses the fact that we are all different and therefore a one size fits all approach is counter productive to good health

What the Health Eunice Wong, 2017-02-22 What The Health is the official stand alone companion book to the groundbreaking documentary of the same name directed by Kip Andersen and Keegan Kuhn directors of the award winning documentary Cowspiracy The Sustainability Secret If the film is a peephole then this book knocks down the entire door diving into expanded interviews extensive research and personal narratives Scientific literature shows that eating saturated fat mainly found in animal products like meat dairy and eggs is more strongly associated with death than smoking cigarettes Think about that If at a neighborhood cookout the dad next door offered you and your child a cigarette and a light how would you react And yet we accept with thanks the glistening beef burgers from that same dad Whats the difference between taking the cigarette and the burger The smell and the taste The social assumptions The habits The lack of knowledge Journey with Kip and Keegan as they crisscross the country talking to physicians dietitians cardiologists pediatricians bariatric surgeons lawyers economists activists and food safety advocates in a passionate search for the truth about the food we eat and the stunning implications for our health and the countrys cascade of killer diseases Along the way they meet Ren Miller whose home is routinely drenched by manure cannons from the factory farm next door slaughterhouse vet Dr Lester Friedlander who blew the whistle on Mad Cow Disease political prisoner Jake Conroy and world class athletes like former NFL defensive lineman David Carter and ultra endurance athlete Rich Roll who completed 5 Ironman triathlons in under a week and many other fascinating characters each with their own piece of the puzzle There is a health revolution brewing Many people know theres something terribly broken about the industrial food medical and pharmaceutical systems but they dont know what it is Its no wonder

because there is an intricate political and corporate apparatus in place to keep them from finding out People think heart disease cancer and diabetes are inherited not realizing that what theyve actually inherited are the eating habits of their parents and grandparents Lifestyle choices like diet and lack of exercise are responsible for about 70 percent of deaths in this country Diseases that kill millions can be prevented or even reversed What The Health takes you on an adventure uncovering the lethal entwining of the food medical and pharmaceutical industries with our own government and the corporate legislative web designed to confuse the public and keep Americans chronically and profitably ill

Food Cults Kima Cargill, 2016-12-01 What do we mean when we call any group a cult Defining that term is a slippery proposition the word cult is provocative and arguably pejorative Does it necessarily refer to a religious group A group with a charismatic leader Or something darker and more sinister Because beliefs and practices surrounding food often inspire religious and political fervor as well as function to unite people into insular groups it is inevitable that food cults would emerge Studying the extreme beliefs and practices of such food cults allows us to see the ways in which food serves as a nexus for religious beliefs sexuality death anxiety preoccupation with the body asceticism and hedonism to name a few In contrast to religious and political cults food cults have the added dimension of mediating cultural trends in nutrition and diet through their membership Should we then consider raw foodists many of whom believe that cooked food is poison a type of food cult What about paleo diet adherents or those who follow a restricted calorie diet for longevity Food Cults explores these questions by looking at domestic and international contemporary and historic food communities characterized by extreme nutritional beliefs or viewed as fringe movements by mainstream culture While there are a variety of accounts of such food communities across disciplines this collection pulls together these works and explains why we gravitate toward such groups and the social and psychological functions they serve This volume describes how contemporary and historic food communities come together and foment fanaticism judgment charisma dogma passion longevity condemnation and exaltation
