Living (In)Dependence Bill F. Ndi, Benjamin Hart Fishkin, Adaku T. Ankumah, 2024-11-29 *Living In Dependence* Critical Perspectives on Global Interdependence embraces a multidisciplinary approach to the interconnectedness of independence and dependence in every ramification of the words These scholars and academics from different disciplinary area examine independence which rhetoric is aimed at legitimizing nationalist and isolationist positions and with exclusionists clamoring for walls separating people who supposedly live in a global village *Living In Dependence* Critical Perspectives on Global Interdependence is a timely reminder especially when the world is at cross purposes with generation old alliances falling apart like the Berlin Wall that less than 30 years ago fell to mark an end to sadness and separation that same engendered from 1949 1989 In short this study explores the binary of life experience of independence and that of dependence as constituent flipsides of a coin whose meaning can only be grasped by taking a closer look at each facet

The Care of the Self and the Care of the Other Daniel Louis Wyche, 2025-05-20 What is the relationship between the ethical transformation of the self and the political transformation of the world This book explores the ways several twentieth century thinkers can help us relate the care of the self to the care of the other tracing their accounts of how and why practices intended to change an individual can help spur

social and political change just as collective political action can produce a transformation of the self Daniel Louis Wyche examines the political implications of what he calls practices of ethical self change These include Pierre Hadot s notion of spiritual exercises what the French sociologist of labor Georges Friedmann calls the interior effort Michel Foucault s ethics of the care of the self what Martin Luther King Jr refers to as the work of self purification integral to direct action and Audre Lorde s claim that caring for herself constitutes a form of political warfare Wyche argues that these concepts can collectively provide an understanding that effaces distinctions between the care of the self the other and the community in a way that avoids reducing the political to the ethical Ambitious and nuanced *The Care of the Self and the Care of the Other* offers a framework for unifying individual moral action and collective political life

The Art of Anti-Racism Alix L. Olson, Alex Zamalin, 2025-12-01 Leading scholars grounded in a range of disciplines examine the intersection of anti racist activism aesthetics and contemporary political theory *The Art of Anti Racism* offers a sustained theoretical examination of the aesthetic dimensions of anti racist struggle It argues that political theory itself can be understood as an art a dynamic process of claim making and critically analyzing and expanding our ethical moral and strategic visions Politics likewise is the art of assembling messages narratives symbols emotions and affects in public and through collective institutions and structures Art in turn can serve as a critique of existing political realities while gesturing toward a horizon beyond reimagining the boundaries of the politically possible Through its expressive capacity art dramatizes subjectivity experience and aspirations embodying the contestation that is central to democratic politics Given these intersections contemporary political theory offers invaluable resources for engaging with the aesthetics of anti racist political thought practice and culture The contributors to this volume explore the following questions How might various accounts of power and resistance be brought to bear on evaluating the often unquantifiable political effects of creative anti racist interventions What insights can political theory provide to strengthen ties between anti racist art and broader movement aims How might art itself be reimagined and reconstructed to align with anti racist praxis
