Advances in Artificial Intelligence, Software and Systems Engineering Tareq Ahram, 2019-06-10 This book addresses emerging issues resulting from the integration of artificial intelligence systems in our daily lives It focuses on the cognitive visual social and analytical aspects of computing and intelligent technologies highlighting ways to improve the acceptance effectiveness and efficiency of said technologies Topics such as responsibility integration and training are discussed throughout The book also reports on the latest advances in systems engineering with a focus on societal challenges and next generation systems and applications for meeting them The book is based on two AHFE 2019 Affiliated Conferences on Artificial Intelligence and Social Computing and on Service Software and Systems Engineering which were jointly held on July 24 28 2019 in Washington DC USA Local Applications of the Ecological Approach To Human-Machine Systems Peter A. Hancock, John M. Flach, Jeff Caird, Kim J. Vicente, 2018-05-02 There is a growing consensus in the human factors ergonomics community that human factors research has had little impact on significant applied problems Some have suggested that the problem lies in the fact that much HF E research has been based on the wrong type of psychology an information processing view of psychology that is reductionistic and context free Ecological psychology offers a viable alternative presenting a richer view of human behavior that is holistic and contextualized The papers presented in these two volumes show the conceptual impact that ecological psychology can have on HF E as well as presenting a number of specific examples illustrating the ecological approach to human machine systems It is the first collection of papers that explicitly draws a connection between these two fields While work in this area is only just beginning the evidence available suggests that taking an ecological approach to human factors ergonomics helps bridge the existing gap between basic research and applied problems **Display and Interface Design** Kevin B.
