London's Mayor at 20 Jack Brown, Richard Brown, Tony Travers, 2020-11-24 This year London's elected mayor and assembly turn twenty But has London's mayoralty lived up to the expectations that were set for it Have its three mayors been able to get to grips with the city's challenges How have they responded to crises in the past and what does the future hold This important new book marks the twentieth anniversary of London's mayor and assembly and investigates the relative successes and challenges of the mayoralty to date before asking what comes next for London It combines analysis by experts with reflections from those closely involved in setting up running and working with the Greater London Authority alongside those who have held the position of Mayor of London themselves [A Contemporary Archaeology of London's Mega Events](#) Jonathan Gardner, 2022-05-16 A Contemporary Archaeology of London's Mega Events explores the traces of London's most significant modern mega events Though only open for a few weeks or months mega events permanently and disruptively reshape their host cities and societies they demolish and rebuild whole districts they draw in materials and participants from around the globe and their organisers self consciously seek to leave a legacy that will endure for decades or more With London as his case study Jonathan Gardner argues that these spectacles must be seen as long lived and persistent rather than simply a transient or short term phenomena Using a novel methodology drawn from the subfield of contemporary archaeology the archaeology of the recent past and present day a broad range of comparative studies are used to explore the long term history of each event These include the contents and building materials of the Great Exhibition's Crystal Palace and their extraordinary afterlife at Sydenham South London how the Festival of Britain's South Bank Exhibition employed displays of ancient history to construct a new post war British identity and how London 2012 as the latest of London's mega events dealt with competing visions of the past as archaeology waste and heritage in creating a vision of the future *John O'London's Weekly*, 1920 **The Life & Legend of a Rebel Leader: Wat Tyler** Stephen Basdeo, 2018-02-28 In 1381 England was on the brink the poor suffered the effects of war the Black Death and Poll Tax At this time the brave Wat Tyler arose to lead the commoners forming an army who set off to London to meet with King Richard II and present him with a list of grievances and demands for redress Tyler was treacherously struck down by the Lord Mayor His head hacked from his shoulders pierced on a spike and made a spectacle on London Bridge Yet he lived on through the succeeding centuries as a radical figure the hero of English Reformers Revolutionaries and Chartists The Life and Legend of a Rebel Leader Wat Tyler examines the eponymous hero's literary afterlives Unlike other medieval heroes such as King Arthur or King Alfred whose post medieval manifestations were supposed to inspire pride in the English past if Wat Tyler's name was invoked by the people the authorities had something to fear [Readers' Guide to Periodical Literature](#) Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1919 An author subject index to selected general interest periodicals of reference value in libraries *Remembering Women's Activism* Sharon Crozier-De Rosa, Vera Mackie, 2018-09-25 Remembering

Women's Activism examines the intersections between gender politics and acts of remembrance by tracing the cultural memories of women who are known for their actions. Memories are constantly being reinterpreted and are profoundly shaped by gender. This book explores the gendered dimensions of history and memory through nation-based and transnational case studies from the Asia Pacific region and Anglophone world. Chapters consider how different forms of women's activism have been remembered: the efforts of suffragists in Britain, the USA and Australia to document their own histories and preserve their memory; Constance Markievicz and Qiu Jin, two early twentieth-century political activists in Ireland and China respectively; the struggles of women workers and the movement for redress of those who have suffered militarized sexual abuse. The book concludes by reflecting on the mobilization of memories of activism in the present. Transnational in scope and with reference to both state-centred and organic acts of remembering including memorial practices, physical sites of memory, popular culture and social media, *Remembering Women's Activism* is an ideal volume for all students of gender and history, the history of feminism and the relationship between memory and history. Sustainable Smart City Transitions Luca Mora, Mark Deakin, Xiaoling Zhang, Michael Batty, Martin de Jong, Paolo Santi, Francesco Paolo Appio, 2022-02-23. This book enhances the reader's understanding of the theoretical foundations, sociotechnical assemblage and governance mechanisms of sustainable smart city transitions. Drawing on empirical evidence stemming from existing smart city research, the book begins by advancing a theory of sustainable smart city transitions which forms bridges between smart city development studies and some of the key assumptions underpinning transition management and system innovation research, human geography, spatial planning and critical urban scholarship. This interdisciplinary theoretical formulation details how smart city transitions unfold and how they should be conceptualized and enacted in order to be assembled as sustainable developments. The proposed theory of sustainable smart city transitions is then enriched by the findings of investigations into the planning and implementation of smart city transition strategies and projects. Focusing on different empirical settings, change dimensions and analytical elements, the attention moves from the sociotechnical requirements of citywide transition pathways to the development of sector-specific smart city projects and technological innovations, in particular in the fields of urban mobility and urban governance. This book represents a relevant reference work for academic and practitioner audiences, policy makers and representative of smart city industries. The chapters in this book were originally published as a special issue of the *Journal of Urban Technology*.
