Time Narrative And History Studies In Phenomenology And Existential Philosophy:

Time, Narrative, and History David Carr, 1991 For description and defense of the narrative configurations of everyday life and of the practical and social character of those narratives there is no better treatment than *Time Narrative and History* a clear judicious and truthful account provocative from beginning to end *Journal of the British Society for Phenomenology* a superior work of philosophy that tells a unique and insightful story about narrative *Quarterly Journal of Speech* **History** Jörn Rüsen, 2005-01-01 Without denying the importance of the postmodernist approach to the narrative form and rhetorical strategies of historiography the author one of Germany's most prominent cultural historians argues here in favor of reason and methodical rationality in history He presents a broad variety of aspects factors and developments of historical thinking from the 18th century to the present thus continuing in exemplary fashion the tradition of critical self reflection in the humanities and looking at historical studies as an important factor of cultural orientation in practical life *History and Memory in the Dead Sea Scrolls* Travis B. Williams, 2019-05-16 Charts a new methodological course in Dead Sea Scrolls scholarship by employing memory theory to inform historical research This is an instructive resource for scholars who are seeking an alternative to currently constructed approaches to the subject and will be of appeal to those interested in the Dead Sea Scrolls more generally *On the Borders of Convention* Aleksandra Nikčević Batrićević, 2010-05-11 The research presented in this book is authored by scholars coming from as distant regions as South Africa the United States of America Great Britain France Italy Belarus the Balkans Needless to say that one of the good things about this international cooperation is that owing to their different socio cultural backgrounds these scholars have contributed to producing an extremely varied picture of ways of approaching the challenge of a changing world The papers on literature and culture collected in this book contribute a further element of rigour into the discussion of numerous and always varying and changing borders of convention in a literary text literary genre and literary theory as well as in general culture and everyday paths of life Starting with oral cultures over the classic literary masters modernist and postmodernist textual and theoretical phenomena the twentieth century flouting of numerous social and gender convention through painting film dance contemporary music as well as graffiti We have sought to stress that what is most noticeable from the evidence of their studies is that scholars today concern these issues through a dynamic global process and beyond any preconceived design or any strict set of theoretical prescriptions which would otherwise lead them to ignore the ever shifting borders in literature and culture as well as in global socio cultural reality in general The variety and complexity of these essays offer fresh views to the problem posed in the title of the book Therefore we trust that they will stimulate intellectual confrontation and circulation of ideas within the field of literature and cultural studies **The SAGE Handbook of Social Research Methods** Pertti Alasuutari, Leonard Bickman, Julia Brannen, 2008-02-25 The SAGE Handbook of Social Research Methods is a must for every social science researcher It charts the new and evolving terrain of social research methodology covering

qualitative quantitative and mixed methods in one volume The Handbook includes chapters on each phase of the research process research design methods of data collection and the processes of analyzing and interpreting data The volume maintains that there is much more to research than learning skills and techniques methodology involves the fit between theory research questions research design and analysis The book also includes several chapters that describe historical and current directions in social research debating crucial subjects such as qualitative versus quantitative paradigms how to judge the credibility of types of research and the increasingly topical issue of research ethics The Handbook serves as an invaluable resource for approaching research with an open mind This volume maps the field of social research methods using an approach that will prove valuable for both students and researchers

Presenting Difficult Pasts Through Architecture
 Rumiko Handa, 2021-03-24 Architectural design can play a role in helping make the past present in meaningful ways when applied to preexisting buildings and places that carry notable and troubling pasts In this comparative analysis Rumiko Handa establishes the critical role architectural designs play in presenting difficult pasts by examining documentation centers on National Socialism in Germany *Presenting Difficult Pasts Through Architecture* analyzes four centers Cologne Nuremberg Berlin and Munich from the point of view of their shared intent to make the past present at National Socialists perpetrator sites Applying original frameworks Handa considers what more architectural design could do toward meaningful representations and interpretations of difficult pasts This book is a must read for students practitioners and academics interested in how architectural design can participate in presenting the difficult pasts of historical places in meaningful ways

Geschichte Der Geschichtsschreibung, 1993 *Journal of the History of Philosophy*, 1989 *The Ḥadīth: Narrative, context, and content* Mustafa Akram Ali Shah, 2010 The Prophetic traditions of Islam which are commonly referred to as the hadiths literally reports preserve the sum and substance of the utterances deeds directives and descriptive anecdotes connected with the life of the Prophet Muhammad and his Companions Together with the Qur'an the hadiths provide the religion of Islam with its principal scriptural sources The collection features an accessible and informative introduction which presents an outline of the significance of the hadiths within the religious tradition while also reviewing classical scholarship devoted to the literature of the traditions moreover the introduction decisively sets into context the academic debates and arguments which are fleshed out in the articles selected It also charts developments in the academic study of hadiths summing up the current state of the field and features a detailed bibliography listing primary classical sources germane to the field of Prophetic traditions together with recent research monographs and articles devoted to the subject This Major Work provides an authoritative collection of the seminal research articles produced by western academic scholarship on the subject of the hadith over the past century including recent papers on the subject In bringing together the finest examples of scholarship devoted to the hadith and the classical literature that surrounds it these volumes provide an indispensable reference resource for academics research institutions governmental organizations and those with a general interest in
