Timing Canada Paul Huebener, 2015-12-01 Time as a form of power in Canadian society literature and cultural imagination *Changing Politics of Canadian Social Policy* James J. Rice, Michael J. Prince, 2013-01-01 *Changing Politics of Canadian Social Policy* is a one of a kind resource in the fields of political science and social work *Changing Politics of Canadian Social Policy* Michael J. Prince, James J. Rice, 2000-03-18 No one is content with the state of health and social programs in Canada today The Right thinks that there is too much government involvement and the Left thinks there is not enough In *Changing Politics of Canadian Social Policy* James Rice and Michael Prince track the history of the welfare state from its establishment in the 1940s through its development in the mid 1970s to the period of deficit crisis and restraint that followed in the late 1970s and 1980s Taking a historical perspective the authors grapple with the politics of social policy in the 1990s Globalization and the concomitant corporate mobility affect government's ability to regulate the distribution of wealth while the increasing diversity of the population puts increasingly complex demands on an already overstressed system Yet in the face of these constraints the system still endures and is far from irrelevant Some social programs have been dismantled but the government has organized and maintained others Greater democratization of welfare programs and social policy agencies could make the system thrive again *Changing Politics* provides the much needed groundwork for students and policy makers while also proposing real solutions for the future *Time, Globalization and Human Experience* Paul Huebener, Susie O'Brien, Tony Porter, Liam Stockdale, Yanqiu Rachel Zhou, 2016-11-03 This edited volume focuses on the intersection of time and globalization as manifested across a variety of economic political cultural and environmental contexts Since David Harvey's influential characterization of globalization as time space compression ample research has looked at the spatial aspect of the phenomenon yet few have focused on globalization's temporal aspects Meanwhile other publications have analysed problems of speed acceleration and the commodification of time but while it often serves as the implicit or explicit backdrop for these studies of time globalization is not investigated as a problem or a question in its own right In response this volume develops these conversations to consider how time shapes globalization and how globalization affects our experience of time The interplay between varying aspects of the human experiences of time and globalization requires the type of interdisciplinary approach that this volume takes The contributors advance an understanding of global time's as an arena of contestation with social political ecological and cultural implications for human and other lives In considering the diverse valences of time and globalization they illuminate problems as well as possibilities Topics covered include emerging infectious diseases temporal sovereignty worker exploitation and resistance chronobiology energy politics activism and hope and literary and cinematic representations of counter temporalities offering a rich and varied account of global times This volume will be of great interest to students and researchers from a range of disciplines including anthropology cultural studies globalization international relations literary studies political science social theory and sociology

Time and Globalization Paul Huebener, Susie O'Brien, Tony Porter, Liam Stockdale, Yanqiu Rachel Zhou, 2018-11-09 Both academic and popular representations of globalization critical or celebratory have tended to conceptualize it primarily in spatial terms rather than simultaneously temporal ones. However, time in both its ideational and material dimensions has played an important role in mediating and shaping the directions, courses, and outcomes of globalization. Focusing on the intersection of time and globalization, this book aims to create an interdisciplinary dialogue between the largely separated respective literatures on each of these themes. This dialogue will be of both theoretical and empirical significance since many urgent issues of contemporary human affairs from large epochal problems such as climate change to everyday struggles with the dynamics of social acceleration involve a complex interplay between temporality and globalization. A critical understanding of the relationship between time and globalization will not only facilitate innovative thinking about globalization; it will also foster our imagination of alternatives that may lead to more socially just and sustainable futures. This innovative collection illustrates the theoretical benefits of bridging time with globalization and also exemplifies the methodological strengths of engaging in cutting edge interdisciplinary scholarship to better understand the changing economic, social, political, cultural, and ecological dynamics in this globalizing world. This book was originally published as a special issue of the journal *Globalizations*.

Rebuilding Canadian Party Politics R. Kenneth Carty, William Cross, Lisa Young, 2007-11 This book is about the collapse of Canadian party politics in the early 1990s, about the end of a party system that had governed Canada's national politics for several decades, and about the ongoing struggle to build its successor.

Changing Canada Wallace Clement, Leah F. Vosko, 2003 Changing Canada examines political transformations, welfare state restructuring, international boundaries and contexts, the new urban experience, and creative resistance. The authors question dominant ways of thinking and promote alternative ways of understanding and explaining Canadian society and politics that encourage progressive social change. They examine how the evolution of capitalism is producing new types of transformations and new forms of resistance and show that aspects of the state and the wider society are being contested. They also discuss the often paradoxical or contradictory effects of various social forces such as the liberating but also constraining features of new communications technologies, new employment norms, and new household forms.

Power Shift? Political Leadership and Social Media David Taras, Richard Davis, 2019-12-09 Power Shift: Political Leadership and Social Media examines how political leaders have adapted to the challenges of social media, including Facebook, Instagram, Twitter, and memes among other means of persuasion. Established political leaders now use social media to grab headlines, respond to opponents, fundraise, contact voters directly, and organize their election campaigns. Leaders of protest movements have used social media to organize and galvanize grassroots support and to popularize new narratives, narratives that challenge and sometimes overturn conventional thinking. Yet each social media platform provides different affordances and different attributes, and each is used differently by political leaders. In this book, leading international experts provide an

unprecedented look at the role of social media in leadership today Through a series of case studies dealing with topics ranging from Emmanuel Macron and Donald Trump s use of Twitter to Justin Trudeau s use of selfies and Instagram to how feminist leaders mobilize against stereotypes and injustices the authors argue that many leaders have found additional avenues to communicate with the public and use power This raises the question of whether this is causing a power shift in the relationship between leaders and followers Together the chapters in this book suggest new rules of engagement that leaders ignore at their peril The lack of systematic theoretically informed and empirically supported analyses makes *Power Shift Political Leadership and Social Media* an indispensable read for students and scholars wishing to gain new understanding on what social media means for leadership

Changing Perceptions of the EU at Times of Brexit

Natalia Chaban, Arne Niemann, Johanna Speyer, 2020-07-19 This volume brings together contributions that conceptualize and measure EU perceptions in the strategic regions around the world in the aftermath of the UK referendum Contributors assess the evolution of EU perceptions in each location and discuss how their findings may contribute to crafting foreign policy options for the new EU 27 Brexit is very likely to have a substantial bearing on EU external policy not merely because of the loss of a major member state with a special relationship to the US and the Commonwealth but also because it challenges the integrational success story that the EU strives to embody This book thus serves a dual purpose on the one hand it broadens the recent studies on Brexit by focusing on external partners reactions and on the other it allows for an innovative evaluation of policy options for EU foreign policy Based on a solid theoretical foundation and empirically rich data it constitutes an innovative and timely addition to the evolving debate on Brexit and its consequences This book will be of key interest to scholars and students of European politics British politics EU politics comparative politics and international relations

form of representation should be acted on now He does this by presenting readers with a detailed model of the new politics He argues that adopting the model would establish the close collaborative relationship of citizens their MPs cabinet and civil servants needed to strengthen the performance of government Professor Lyon urges politicians to respect the desire of citizens for fundamental change Party politics is he states 19th century politics and fails to meet the needs of today Citizen politics for the 21st century is what he proposes and he argues Canada stands on the cusp of making the change to them

The Politics of War Jean-Christophe Boucher,Kim Richard Nossal,2017-10-15 When the Canadian government committed forces to join the military mission in Afghanistan following the terrorist attacks of September 11 2001 little did it foresee that this decision would involve Canada in a war riven country for over a decade *The Politics of War* explores how as the mission became increasingly unpopular Canadian politicians across the political spectrum began to use it to score points against their opponents This was politics with a vengeance Through historical analysis of the public record and interviews with officials Jean Christophe Boucher and Kim Richard Nossal show how the Canadian government sought to frame the engagement in Afghanistan as a mission rather than what it was a war They examine the efforts of successive governments to convince Canadians of the rightness of Canada s engagement the parliamentary politics that resulted from the increasing politicization of the mission and the impact of public opinion on Canada s involvement This contribution to the field of Canadian foreign policy demonstrates how much of Canada s war in Afghanistan was shaped by the vagaries of domestic politics and political gamesmanship
