The Railroad Photography of Jack Delano Tony Reevy, 2015-12-14 Born in the Ukraine photographer Jack Delano moved to the United States in 1923 After graduating from Pennsylvania Academy of Fine Arts in 1937 Delano worked for the Farm Security Administration FSA and the Office of War Information OWI as a photographer Best known for his work for the Office of War Information during 1940 1943 Jack Delano captured the face of American railroading in a series of stunning photographs His images especially his portraits of railroad workers are a vibrant and telling portrait of industrial life during one of the most important periods in American history This remarkable collection features Delano s photographs of railroad operations and workers taken for the OWI in the winter of 1942 43 and during a cross country journey on the Atchison Topeka and Santa Fe Railway plus an extensive selection of his groundbreaking color images The introduction provides the most complete summary of Delano s life published to date Both railroad and photography enthusiasts will treasure this

worthy tribute to one of the great photographers of the thirties and forties **The Rock Island Line** Bill Marvel, 2021-12-22 Explore the rich history of the legendary railroad that spanned the American Midwest in this beautifully illustrated volume Beginning operations in the mid nineteenth century the Rock Island Line served farms and small town America for more than 140 years One of the earliest railroads to build westward from Chicago it was the first to span the Mississippi advancing the frontier bringing settlers into the West and hauling their crops to market Rock Island s celebrated Rocket passenger trains also set a standard for speed and service with suburban runs as familiar to Windy City commuters as the Loop For most of its existence the Rock battled competitors much larger and richer than itself When it finally succumbed the result was one of the largest business bankruptcies ever Today as its engines and stock travel the busy main lines operated by other carriers the Rock Island Line lives on in the hearts of those whom it employed and served The Electric Pullman Lawrence A.

Brough, 2013-04-18 A history of the Ohio railroad car and equipment company and its 16 year run Entering an already crowded and established industry the Niles Car Manufacturing Company in Ohio began business with surprising success producing well over 1 000 electric and steam railway cars cars so durable they rarely needed to be replaced That durability essentially put the company out of business and it vanished from the scene as quickly as it had appeared leaving little behind except its sturdy railway cars The story of this highly regarded company spans just 16 years from Niles s incorporation in 1901 to the abandonment of railway car production and sale of the property to a firm that would briefly build engine parts during World War I Including unpublished photographs and rosters of railway cars produced by the company and still in existence in railroad museums The Electric Pullman will appeal to railroad enthusiasts everywhere Praise for The Electric Pullman Required reading for anyone interested in interurban history It holds additional appeal for those interested in Ohio history or the junction point between business society and technology Lexington Quarterly Although not one of the major manufacturers in its field the Niles company produced some notable and well remembered equipment during the height of

the electric interurban railway era Indeed among some interurban railway historians Niles cars are sacred objects As such its story deserves to be told and theoretically would be a logical complement to IUP s books on the Brill and Jewett companies Brough himself is a serious historian who knows his subject and has clearly mined all the sources that seem to exist Herbert H Harwood Jr author of *The Railroad that Never Was* and *The New York Westchester Boston Railway* **Railroaders without Borders** H. Roger Grant,2015-10-22 For over 25 years the creatively led Railroad Development Corporation RDC has rejuvenated a series of down and out and even defunct railroads Launched in 1987 by Henry Posner III this investment and management company has demonstrated that it is possible both to have a conscience and to earn a profit in today s railroad industry With ventures on four continents RDC has created an admirable record of long term commitments respect for local cultures and protection of the public interest H Roger Grant presents a firsthand look at this unique business operation and its triumphs and disappointments **Electric Interurbans and the American People** H. Roger Grant,2016-10-31 A well written social history of the shortest lived major US transportation mode from the railway historian and author of *A Mighty Fine Road Choice* One of the most intriguing yet neglected pieces of American transportation history electric interurban railroads were designed to assist shoppers salesmen farmers commuters and pleasure seekers alike with short distance travel At a time when most roads were unpaved and horse and buggy travel were costly and difficult these streetcar like electric cars were essential to economic growth But why did interurban fever strike so suddenly and extensively in the Midwest and other areas Why did thousands of people withdraw their savings to get onto what they believed to be a gravy train How did officials of competing steam railroads respond to these challenges to their operations H Roger Grant explores the rise and fall of this fleeting form of transportation that started in the early 1900s and was defunct just 30 years later Perfect for railfans *Electric Interurbans and the American People* is a comprehensive contribution for those who love the flanged wheel With this book the subject no longer has footnote status In fact Grant s work deserves a place alongside some of the other landmark surveys of the subject Here Grant moves beyond the receiverships the rickety track and all that fascinating rolling stock He shows us why the whole darned thing mattered *Railroad History* H Roger Grant has produced a fine social history of America s electric interurbans exploring the relationship between people and those railway enterprises The book fills a void is eminently readable and richly illustrated Don L Hofsommer author of *Off the Main Lines* *The Complete History of Railroads* Britannica Educational Publishing,2011-11-01 Traversing landscapes and expediting travel railroads have allowed us to conquer once elusive frontiers to improve both transportation and commerce Railroad design has changed remarkably little in the years since the invention of the steam engine yet trains remain a prevalent form of transport and the railways The bridges that have been developed to support them continue to be a vital part of infrastructures in countries around the world This engaging volume examines the evolution of railways railcars and bridges as well as the lives of pioneers and tycoons in the railroad business *The Louisville, Cincinnati & Charleston Rail*

Road H. Roger Grant, 2021-12-22 Among the grand antebellum plans to build railroads to interconnect the vast American republic perhaps none was more ambitious than the Louisville Cincinnati Charleston The route was intended to link the cotton producing South and the grain and livestock growers of the Old Northwest with traders and markets in the East creating economic opportunities along its 700 mile length But then came the Panic of 1837 and the project came to a halt H Roger Grant tells the incredible story of this singular example of railroad fever and the remarkable visionaries whose hopes for connecting North and South would require more than half a century and one Civil War to reach fruition **Twilight of the Great Trains** Fred W. Frailey, 1998 Reveals the never before told story of how and why passenger service declined in the years after World War II Traces the decline and fall of the pre Amtrak passenger train and how eleven rail systems fought off the inevitable **Railfan & Railroad**, 2001 *Who's who in New York City and State*, 1911 Containing authentic biographies of New Yorkers who are leaders and representatives in various departments of worthy human achievement including sketches of every army and navy officer born in or appointed from New York and now serving of all the congressmen from the state all state senators and judges and all ambassadors ministers and consuls appointed from New York **Baltimore and Ohio Employes Magazine**, 1936 *United States Investor*, 1913 **Atkinson's Evening Post and Philadelphia Saturday News**, 1953-11 **Aviation**, 1929 *Michigan Christian Advocate*, 1904 Harper's Weekly John Bonner, George William Curtis, Henry Mills Alden, Samuel Stillman Conant, Montgomery Schuyler, John Foord, Richard Harding Davis, Carl Schurz, Henry Loomis Nelson, John Kendrick Bangs, George Brinton McClellan Harvey, Norman Hapgood, 1909 **Sawards' Coal Freight Circular** Frederick Edward Seward, 1876 **Congressional Record** United States.
