Statelessness and Citizenship Victoria Redclift, 2013-06-26 What does it mean to be a citizen In depth research with a stateless population in Bangladesh has revealed that despite liberal theory s reductive vision the limits of political community are not set in stone The Urdu speaking population in Bangladesh exemplify some of the key problems

facing uprooted populations and their experience provides insights into the long term unintended consequences of major historical events Set in a site of camp and non camp based displacement it illustrates the nuances of political identity and lived spaces of statelessness that Western political theory has too long hidden from view Using Bangladesh as a case study Statelessness and Citizenship Camps and the creation of political space argues that the crude binary oppositions of statelessness and citizenship are no longer relevant Access to and understandings of citizenship are not just jurally but socially spatially and temporally produced Unpicking Agamben s distinction between political beings and bare life the book considers experiences of citizenship through the camp as a social form The camps of Bangladesh do not function as bounded physical or conceptual spaces in which denationalized groups are altogether divorced from the polity Instead citizenship is claimed at the level of everyday life as the moments in which formal status is transgressed Moreover once in possession of formal status internal borders within the nation state render rights bearing citizens effectively stateless and the experience of citizens is very often equally uneven While statelessness may function as a cold instrument of exclusion certainly it is neither fixed nor static just as citizenship is neither as stable nor benign as the dichotomy would suggest Using these insights the book develops the concept of political space an analysis of the way history and space inform the identities and political subjectivity available to people In doing so it provides an analytic approach of relevance to wider problems of displacement citizenship and ethnic relations Shortlisted for this year s BSA Philip Abrams Memorial Prize *Religious Fundamentalism in the Contemporary World* Santosh C. Saha, 2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions **Document Analysis and Recognition - ICDAR 2025**
