higher education librarians researchers and academicians **Embedded Pharmacists in Primary Care** George E. MacKinnon III, Nathan Lamberton, 2021-06-08 As healthcare delivery moves from a provider centric approach to a more patient centric approach systems and payers need to reimagine how care and team based care is delivered to patients and reimbursed Thus the goal should be to see the right patient by the right provider in the right place for the right price and where appropriate with the use of the right pharmaceutical s 5 P s There continues to be a reduction in physicians that are pursuing primary care roles in the United States thus exacerbating the ability to meet patient demand Most patient encounters begin with or end with the prescribing of medication Thus a future where pharmacists are embedded in primary care settings allows these pharmacists to collaborate at the point of prescribing i e in clinic and provides tremendous benefits to providers and patients The pharmacist workforce is educated at the doctoral level yet vastly underutilized and can assist in a collaborative approach in primary care The collection of articles in the Special Issue Embedded Pharmacists in Primary Care highlight examples of models that have included pharmacists in the ambulatory setting providing services in chronic disease management comprehensive medication management and care of specific conditions such as diabetes

Hypertension Management for the Primary Care Clinician Alan H. Mutnick, 2004 The book combines comprehensive coverage of various aspects of hypertension with guidance in conveying important concepts knowledge and advice to patients The result is a highly useful tool for achieving clinically successful cost effective pharmaceutical care for hypertensive patients and for reducing the morbidity and mortality associated with this devastating disease state Book jacket
