Understanding The Politics Of Heritage Understanding Global Heritage Mup:

Understanding the Politics of Heritage Rodney Harrison, 2009-10-15 Written by an interdisciplinary team of scholars this authoritative text presents an engaging narrative of the way politics features in heritage conservation and management New international case studies illustrate how notions of identity social class and nationhood may be woven into the provision of official heritage and how heritage may be seen to be less about upholding truth or authenticity and more about delivering political objectives Aimed primarily at students in heritage studies and professionals in heritage industries this is book three of three in the Understanding Global Heritage series

The Routledge Handbook of Heritage and the Law Lucas Lixinski, Lucie K. Morisset, 2024-02-14 The Routledge Handbook of Heritage and the Law sheds light on the relationship between the two fields and analyses how the law shapes heritage and heritage practice in both expected and unexpected ways Including contributions from 41 authors working across a range of jurisdictions the volume analyses the law as a transnational phenomenon and uses international and comparative legal methodologies to distil lessons for broad application Demonstrating that the law is fundamentally a language of power and contestation the Handbook shows how this impacts our views of heritage It also shows that to understand the ways in which the law impacts key aspects of heritage practice it is important to tap into the possibilities of heritage as points of convergence of identity struggles over resources and the distribution of power Framing heritage as a driver for legal engagement rather than a passive regulatory object the book first reviews the legal fields or mechanisms that can shape action in the heritage field then questions how these enable authority and give power to those who seize heritage and finally envisions how the discussion between heritage and the law can lay new grounds in both those fields Lifting the mists that often render the law opaque in heritage studies the Handbook showcases the law as a medium through which the culture and the power of heritage are expressed and might be shared The Routledge Handbook of Heritage and the Law presents a view of the law that is aimed at those who wish to reflect on how law has changed or could change what heritage is and how it can support social cultural local or other development It will be of interest to scholars students policymakers and practitioners working in the areas of museum studies heritage studies and urban studies as well as in cultural intervention and planning Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Chapter 18 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Chapter 34 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons CC BY 4.0 license The Routledge Handbook of Heritage and the Law Lucas Lixinski Lucie [taylorfrancis.com](http://www.taylorfrancis.com)

Industrial Heritage and Regional Identities Christian Wicke, Stefan Berger, Jana Golombek, 2018-04-09 Heritage is not what we see in front of us it is what we make of it in our heads Heritage sites have been connected to a range of identarian

projects both spatial and non spatial One of the most common links with heritage has been national identity This book stresses that heritage has developed powerful links to regional and local identities Contributors deal explicitly with regions of heavy industry in different parts of the world exploring non spatial forms of identity including class religious ethnic racial gender and cultural identities In many heritage sites non spatial forms of identity are interlinked with spatial ones Civil society action has been important in representations of regional identities and industrial heritage campaigns Region branding seems to determine the ultimate success of industrial heritage a process that is closely connected to the marketing of regions to provide a viable economic future and attract tourism to the region Selected case studies on coal and steel producing regions in this book provide the first global survey of how regions of heavy industry deal with their industrial heritage and what it means for regional identity and region branding This book draws a range of powerful conclusions about the path dependency of particular forms for post industrial regional identity in former regions of heavy industry It highlights both commonalities and differences in the strategies employed with regard to the regions industrial heritage This book will appeal to lecturers students and scholars in the fields of heritage management industrial studies and cultural geography

A Cultural History of the British Empire John MacKenzie, 2022-12-06 A compelling history of British imperial culture showing how it was adopted and subverted by colonial subjects around the world As the British Empire expanded across the globe it exported more than troops and goods In every colony imperial delegates dispersed British cultural forms Facilitated by the rapid growth of print photography film and radio imperialists imagined this new global culture would cement the unity of the empire But this remarkably wide ranging spread of ideas had unintended and surprising results In this groundbreaking history John M MacKenzie examines the importance of culture in British imperialism MacKenzie describes how colonized peoples were quick to observe British culture and adapted elements to their own ends subverting British expectations and eventually beating them at their own game As indigenous communities integrated their own cultures with the British imports the empire itself was increasingly undermined From the extraordinary spread of cricket and horse racing to statues and ceremonies MacKenzie presents an engaging imperial history one with profound implications for global culture in the present day

Global Social Archaeologies Koji Mizoguchi, Claire E Smith, 2019-06-27 *Global Social Archaeologies* contributes to the active engagement of contemporary social archaeology through addressing issues such as postcolonialism community heritage and Indigenous rights It addresses the major challenge of breaking down global divides especially in relation to fundamental human rights inequality and inequities of wealth power and access to knowledge This authoritative volume authored by the current and past presidents of the World Archaeological Congress introduces readers to the various theoretical and methodological tools available for the investigation of the past Taking into account the implications for contemporary societies it offers a new framework for social archaeologies in a globalised world By combining new data from their research with an innovative synthesis and analysis of leading research by others the authors have developed fresh

Understanding Global Heritage Open University AD281/Course, 2009 **Global Civil Society in International Lawmaking and Global Governance** Barbara Woodward, 2010-05-17 International law scholarship has not adequately recognised the magnitude of the role of global civil society in global governance and international lawmaking Building upon theoretical historical and legal scholarship and presenting studies of GCS actor practice in a wide range of lawmaking processes including treaty making conferences international organisations and adjudicatory mechanisms this book convincingly demonstrates that GCS actors have created and influenced the creation of norms of binding public international law and influential non binding soft or non law It presents a compelling case that calls for augmenting GCS access to information participation in legal decision making processes for those likely to be affected and access justice thereby enhancing the legitimacy of public international law **The British Empire through buildings** John M. MacKenzie, 2020-03-09 Imperialism is strikingly represented in its buildings This work illuminates the dispersal of colonial culture and religious forms social classes and racial divisions over two centuries from the establishment of colonial rule to a post colonial world It will be a vital reading for all students of imperial history and global material culture *Implementing*

International Environmental Law and Policy Joanna Miller Smallwood, 2024-01-24 This book introduces a novel discourse based on socio legal theory of compliance with international environmental law which addresses the overarching question When can international environmental law and policy achieve implementation compliance and be effective Offering an important contribution to academic and practical understandings of implementation and compliance with international environmental obligations the book firstly critiques existing multidisciplinary theories of law and then brings together international and domestic legal theories to highlight their symbiotic relationship It also stresses the importance of interactions between domestic and international legal and policy processes This pioneering discourse is argued to be transformative to international environmental regimes and offers a way for them to be truly normative and to achieve compliance The book will be of interest to students and scholars in the field of socio legal studies and international environmental law and policy The Open Access version of this book available at [http www taylorfrancis com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
