Citizens' Support for the European Union Simon Bauer, 2019-07-02 This book offers a comprehensive analysis of the determinants of EU support between 2006 and 2015 and of electoral behavior during the European Parliament elections In light of the Eurozone financial and debt crisis it also examines how political and economic turbulences have affected EU citizens stance on democracy and their support for EU institutions It explores measures taken in the context of the Euro crisis management and the reactions of EU citizens in order to shed new light on the determinants and developments of EU support The author highlights the heterogeneity of the developments between the member states and identifies social political and economic facets of the crisis that have changed the ways citizens form their political attitudes towards the EU The book delivers a profound account of the Euro crisis integrating approaches from political economy psychology sociology and public opinion research It will appeal to scholars and anyone interested in learning more about the declining citizen support in the EU and the heterogeneous developments in the member states which may significantly endanger the long term existence of the European Union

Pentecostal Public Theology Simo Frestadius, Mark J. Cartledge, 2024-07-11 This is the first academic work to focus explicitly on Pentecostal public theology in Europe Following a growing interest in understanding Pentecostal beliefs and practices with respect to the public sphere this book shifts the focus of Pentecostal engagement with politics society and culture from the Global South and North America to Europe This work also discusses

themes such as Pentecostal public values identity nationalism poverty democracy education race and political engagement in the context of European Pentecostalism The book provides an historical overview by bringing together various European voices to discuss the current challenges and possible trajectories for Pentecostal public theology in a constructive fashion With contributions from leading and emerging European Pentecostal and Charismatic scholars this book is a must for scholars interested in understanding Pentecostal beliefs and practices in the public sphere in a European context *What is Europe?* Anna Triandafyllidou, Ruby Gropas, 2015-11-02 Europe is imbued with a multitude of social cultural economic and political meanings The authors of this comprehensive text present an authoritative yet accessible introduction to understanding Europe today moving beyond accounts of European integration to provide a holistic and nuanced study of contemporary Europe and its historical development This book explores evolving definitions of Europe from antiquity to the Cold War right through to Europe in the midst of the Eurozone and global financial crises By examining the different roles and meanings that Europe has held inside and outside of the continent including the European Union's branding of Europe the text grounds its analysis in an understanding of Europe's plural Chapters explore concepts of Europe as civilization Europe as progress Europe as unity and Europe as diversity How do Europeans think of themselves and their respective national identities in a multicultural and multi ethnic age How has modernity and the pre and post industrial values of Europe affected the Europe of now and what are the political legacies of Europe To what extent are notions of social solidarity shared across the continent This is the first text to systematically answer these questions and others in order to better determine what is Europe *European Identity* Kenneth Keulman, Agnes Katalin Koós, 2014-08-20 The further evolution of the European Union is mainly dependent on how its citizens relate to their fellow Europeans speaking a score of languages and belonging to a variety of cultures This book addresses the question of whether a new sense of collective self identification labeled European identity a special form of socio territorial identities is emerging Collective identities are works in progress they entail a salient strategic activist and future oriented dimension Divergent strategic goals of the constituent groups induce a perpetual contestation and negotiation of the group identity a process that in the case of the EU is intensified by the continuously changing boundaries and institutional structure of the super polity To confront these challenges this book has a double focus The first part weighs in on the feasibility of a European identity in light of what the two main paradigms in the field primordialism and constructivism can predict The second part maps the social forces that are either favorable or inimical to the creation of a common social identity on the continent Both parts develop hypotheses about the processes we witness and test them with the available empirical data Part II distinguishes between passive and active supporters of the integration project besides the Euroskeptic segment of the public Provision of public goods by regional integration is believed to explain passive permissiveness while the main impetus for integration comes from those who may reap above average benefits from it This book contends that the groups of active supporters have historically been

changing within the Union namely the political Left and Right are changing their roles in negotiating future developments Yet the evolution of the EU is also shaped by the solutions adopted to accommodate ethnic and cultural diversity The empirical tests involve opinion survey data taken from the Eurobarometer series World Value and European Social Surveys and the International Social Survey Programme expert ratings as well as party elite documents from the Manifesto Project Database

The European Union in Crisis Desmond Dinan, Neill Nugent, William E. Paterson, 2017-09-09 The

European Union EU is in crisis The crisis extends beyond Brexit the fluctuating fortunes of the eurozone and the challenge of mass migration It cuts to the core of the EU itself Trust is eroding power is shifting politics are toxic disillusionment is widespread and solidarity has frayed In this major new text leading academics come together to unpack all dimensions of the EU in crisis and to analyse its implications for the EU its member states and the ongoing study of European integration

Central and Eastern European Attitudes in the Face of Union S. Guerra, 2013-11-13 Through the analysis of data on support for and opposition to European integration in Central and Eastern Europe this book explores how and why support for the EU has changed in this region and the factors that have led to the fall in popularity of the EU as an institution **The**

Trade Policy of the European Union Sieglinde Gstöhl, Dirk De Bièvre, 2017-11-25 This comprehensive and clearly written textbook offers a long awaited introduction to the trade policy of the European Union the world's largest trading entity Gstöhl and De Bièvre provide a comprehensive assessment of the common commercial policy its relationship with other policies like development policy and of the EU's multi level policy making and international bargaining in this area As well as providing a broad overview of the nature and development of the EU's trade policy the authors analyse how relevant institutions and decision making processes are organized and how this set up fosters particular policy outcomes Gstöhl and De Bièvre show how the thorough and critical study of EU trade policy can be conducted from an interdisciplinary viewpoint enabling the student to tackle the ever evolving political economic and legal questions that arise Given the accessible writing this book is recommended for both undergraduate and Master's students studying the EU and Europe in their Politics International Relations Economics or Law degrees as well as those focusing on international trade policy **The US-EU Security**

Relationship Wyn Rees, 2011-04-26 A constantly evolving security agenda has become a vital part of US EU relations Contemporary security challenges such as the rise of international terrorism and the threat from states of concern have in recent years forced the US and the EU to adapt their relationship and work together in new ways Written by a leading authority this incisive and wide ranging book systematically examines the development of the transatlantic security relationship in the post Cold War era It assesses the nature of the US and EU as international actors and considers how they cooperate together Rees argues that despite divergences of interest after the end of the Cold War the complex nature of contemporary challenges is driving both sides of the Atlantic towards increased cooperation In addition the book looks in detail at how global and European issues such as EU defence and enlargement policies nuclear non proliferation and the war on terror have affected security relations *European Disintegration?* Douglas Webber, 2018-11-20 This new book provides

a comprehensive analysis of Europe on the brink of political disintegration Observers of the European Union EU could be forgiven for thinking that it is in a state of permanent crisis The Union has been beset with high levels of Eurozone debt Russian intervention and armed conflict in Ukraine refugees fleeing conflict zones in North Africa and the Middle East and the decision of Britain to leave the European Union This text offers a concise and readable assessment of the dynamics

character and consequences of these four crises and the increasingly real possibility of European disintegration. High levels of socio-economic interdependence and institutionalization have failed to result in an ever closer union and yet the proposed theories of disintegration also fall short. Webber instead shows that it is only by looking at the role of the EU's dominant member Germany in each crisis that the potential for an increasingly fragmented Europe becomes clear. Until now Germany has been the EU's stabilizing force but this is no longer guaranteed. The fate of the integration process will depend on whether other more inclusive forms of stabilizing leadership may emerge to fill the vacuum created by Berlin's incapacity. This text is the ideal companion for upper undergraduate and postgraduate students of the European Union as part of degrees in politics, international relations or European studies or for anyone interested in the crises of the European Union.

Europeanization and National Politics Robert Ladrech, 2010-03-10 Europeanization has become a key topic in analysis of the politics of the new Europe. This broad-ranging new text focuses centrally on the impact of the EU on its member states but also on the way in which states upload their policy priorities to the European level. *The European Parliament* Ariadna Ripoll Servent, 2017-11-03 This broad-ranging text examines the political dynamic of the European Parliament (EP) showing how the EP is a key component of the political system of the EU. It looks at how and how effectively the parliament translates citizen demands into policies and in so doing contributes to wider debates around democracy and legitimacy in the EU.

The European Commission Neill Nugent, Mark Rhinard, 2015-10-26 The European Commission is at the very heart of the European integration process and with the Council is one of the two central institutions of the European Union. Its activist role under Jacques Delors led to a dramatic increase in its activity and influence and contributed to a crisis of confidence in its effectiveness and its lack of adequate financial controls which culminated in the resignation of the entire Commission under Jacques Santer in 1999. What progress has the Commission made in addressing these issues under Romano Prodi? What are its prospects in face of the new challenges of Eastward enlargement? How great is its influence and how does this vary according to issues and circumstances? What are the implications of its hybrid character as a political and administrative body? How much has the Commission changed over time and how much and how does it need to change now? Written by a leading authority and author of the best-selling introductory text on the EU, this major new text provides the definitive introduction to and assessment of the Commission: its evolution, composition, organisation, character, functioning and role. Comprehensive, up to date and based on extensive original research, it will be essential reading for students of European integration, politicians, policy makers and functionaries and anyone with a serious interest in the European Union, its current character and future prospects.

The European Council Wolfgang Wessels, 2015-09-29 This systematic assessment of the often opaque European Council looks at its characteristics, leaders and output as well as its impact on EU supranational and intergovernmental dynamics. Taking account of historical and contemporary developments up to and beyond the Lisbon Treaty, it encourages in-depth understanding of this key institution.

Theoretical Approaches to European Integration

Sabine Saurugger,2013-08-30 This major new text provides a uniquely broad ranging introduction to and assessment of the contribution of the whole range of theoretical approaches that have been applied to the analysis of European integration It provides tools for understanding the underlying logic behind the political and economic debates that take place in the EU today

Key Controversies in European Integration Hubert Zimmermann,Andreas Dür,2021-03-03 Is the EU a success or a failure Should It Stay or Should It Go Britain and the EU The Big Waste or Essential to Feed Europe The Common Agricultural Policy Observers of the European Union could be forgiven in thinking that since its inception the EU project has been under threat from near constant crises In recent years controversial issues such as EU enlargement the fallout from the Eurozone crisis migration policies Brexit and the Corona pandemic have tested the EU to its limits and divided public opinion in the process The major third edition of this comprehensive textbook on the EU seeks to introduce the integration project by looking at the thorny debates politicians European citizens and the media contend with on a daily basis Well known for its unique and pedagogically innovative key debates format the editors have invited top names in the field to contribute a stirring contribution either for or against each of the toughest political questions the EU faces In doing so not only does it offer a broad introduction to all the key concerns of the Union but it does so in a way that is contemporary engaging and designed to spark controversy New to this Edition All chapters fully revised and updatedNew chapter on the transatlantic partnership All chapters now with key takeaway points Across all controversies more inclusion of mainstream gender and feminist approaches

Opposing Europe in the European Parliament Nathalie Brack,2017-10-20 The book provides an in depth analysis of Eurosceptic strategies in the European Parliament It explores the paradoxical situation of Eurosceptic MEPs particularly successful during EP elections how then once elected do they operate in a political system they oppose This book analyses how Eurosceptic MEPs conceive and carry out their mandate within the institution On the basis of more than 100 interviews it proposes a typology of four strategies developed by these actors It also explains the diversity of Eurosceptic strategies showing the relevance of the interaction between the institutional context and the individuals preferences With the growing success of Eurosceptic parties and the challenges they pose to the future of integration this study also reflects on the consequences of their presence for the EP and for the legitimacy of the EU This book will be of interest to students and scholars of European politics European integration comparative politics legislative studies and political parties
