trespassing and to examine why this originally pagan symbol has persisted into our own age Even something as mundane as putting the cat out before going to bed is traced back to fears of unwatched animals and an untended frontier fireplace Stilgoe ponders the forgotten connections between politics and painted landscapes and asks why a country whose vast majority lives less than a hundred miles from a coast nonetheless looks to the rural Midwest for the classic image of itself At times breathtaking in their erudition the essays collected here are as meticulously researched as they are elegantly written Stilgoe s observations speak to specialists whether they be artists historians or environmental designers as well as to the common reader Our landscapes constitute a fascinating history of accident and intent The proof says Stilgoe is all around us
