Prescriptive Analytics Jeffrey M. Keisler, 2024-08-24 This book combines the quantitative decision informing techniques of management science and operations research with the data centric techniques found throughout the world of analytics. The material uses only standard Excel spreadsheet features and functions for creating models. Using a step by step approach, readers learn a unified architecture for sensitivity, scenario, simulation, decision and optimization analysis. Spreadsheets with numerous screenshots support visual hands on learning and provide some surprising innovations. Special influence diagrams and non intimidating but accurate terminology help explain the logic of the models and calculations. Well structured chapters include guideposts, enrichment and curated links to valuable external resources. Readers are encouraged to own their learning and think about future trajectories for themselves and the field. This book helps all readers quickly learn tools and concepts to use right away and to expand throughout a career. The book includes access to a companion website featuring workbooks and other valuable materials to support learning.

Modeling for Insight Powell, Robert J. Batt, 2008-10-24 Praise for Modeling for Insight: Most books on modeling are either too theoretical or too focused on the mechanics of programming. Powell and Batt's emphasis on using simple spreadsheet models to gain business insight, which is after all the name of the game, is what makes this book stand head and shoulders above the rest. This clear and practical book deserves a place on the shelf of every business analyst. Jonathan Koomey PhD, Lawrence Berkeley National
