Univers Enfantin 2016 Regard Lenfance:

Youth Activism in Environmental Politics, 2nd Edition Matt Henn, Sarah Pickard, 2023-02-02 Recently important new research has emerged to explain the large intergenerational cleavages in values and political preferences in many contemporary societies In most established democracies and many newer democracies young people are more likely to possess progressive values and are much more cosmopolitan in their outlook socially liberal accepting of cultural diversity and outward looking than older generations They tend to reject mainstream electoral politics and authoritarian nationalist forms of populism in favour of alternative progressive political parties and movements Indeed there is burgeoning evidence of a global tendency towards young people s support for and participation in new styles of non institutionalised political action that seem to better fit their life styles and to permit the actualisation of their political aspirations Although there is a considerable body of existing literature that examines the rise of such values and political participation preferences there is little work that focuses on the relationship with the prioritisation of environmental issues and environmental activism as evidenced in the September 2019 global climate strikes The goal of the current Research Topic is to explore the contemporary realities and patterns of youth participation in environmental politics in different societies As such we welcome manuscripts of original research and conceptualization that address the different practices of youth as they seek to effect environmental change and also their motivations for doing so Contributions are welcome from scholars youth practitioners and activists operating in a range of different settings and using diverse disciplinary and multidisciplinary and interdisciplinary perspectives

contemporain Patricia Bissa Enama, Nathalie Fontane-Wacker, 2016 Le secret de famille s'offre comme un sujet romanesque intéressant au sens où il est une affaire de mots une manière de raconter ou de taire les faits de les réinventer et par là même de créer des histoires et des identités qui sont la fois familiales et insaisissables Il n'existe paradoxalement qu'un instant même où il devient un objet de connaissance une matière littéraire Indissociable ainsi du récit de sa quête de sa révélation ou du récit mensonger dont on l'entoure il se manifeste par des signes d'autant plus visibles et cruels que le lieu où il se révèle la famille est un espace clos et scruté Le soupçon du secret crée alors des rapports de force et une conscience de soi particulière Nourri par les récents travaux de psychologie et de génologie le roman contemporain explore ainsi l'intimité familiale le rapport entre le passé et le présent la fiction et la réalité l'identité singulière et l'image de soi telles que la révélation et le non-dit les font naître Le présent volume parcourt la littérature francophone contemporaine pour observer la manière dont les secrets de famille nourrissent et redessinent la fiction celle-ci interrogeant tantôt les liens entre l'intimité familiale et les événements extérieurs collectifs tantôt la filiation entre le présent et son ascendance confuse ou honteuse Cet ouvrage scrute ainsi les secrets de famille tout autant que les variations fictionnelles et génétiques qu'ils ont fait naître Page 4 of cover *L'année de la fiction*
