

The background of the book cover is a photograph of a harbor scene at dusk or dawn. On the left, a large orange gantry crane is visible. In the middle ground, there are several industrial structures, including what looks like a bridge under construction or a large ship's hull. The water is a calm, teal color, and the sky is a pale, hazy blue. The overall mood is industrial yet serene.

Venise Est Ville Franco Mancuso:

Fragile and Resilient Cities on Water Rosa Caroli, Stefano Soriani, 2017-08-21 The process of modernization especially during the twentieth century has brought about dramatic changes in most cities situated on a body of water The search for efficiency and functionality has profoundly affected coastal and urban landscapes gigantism in the port industry has contributed to the degradation of environmental resources and habitats and modernization processes have marginalized local cultures and historical community based values thus causing original features and local specificity to disappear from most of our historical waterfronts During the last few decades the restructuring of port and industrial activities the greater importance of leisure and tourism and increasing concern for environmental matters have led to the rediscovery of water and to the design and implementation of new urban policies aimed at redeveloping urban waterfronts Against this background Venice and Tokyo represent paradigmatic cases of the many challenges which confront urban governance in cities on water In fact the urban history of these cities is intimately linked to their relationship with water which has changed over the centuries creating articulated and complex structures that have characterized their physical aspect and even the image of the two cities offered to the rest of the world From this perspective this volume highlights the most important socio economic historical identitarian environmental and cultural dimensions of the process of the rediscovery of water in Venice and Tokyo as well as offering a re evaluation of their heritage and identity as cities of water It pays particular attention to the various implications of living in such a fragile and liminal space between land and water where natural risks and social and economic vulnerability are particularly high Forum et plaza mayor dans le monde hispanique Casa de Velázquez, 1978 **Revue historique de droit français et étranger**, 1978 **Lieux d'Europe** Stella Ghervas, François Rosset, 2014-07-08 Dire l'Europe est encore et toujours difficile Les auteurs de cet ouvrage ont tenté pourtant de la redire dans la multiplicité de ses manifestations particulières **Privire critică asupra reabilitării și valorificării patrimoniului arhitectural** Dan Bernfeld, Nicolae Lascu, 2003 **Venise est une ville** Franco Mancuso, 2015-10-08 Venise est une ville le titre en soi est ironique et affectueux fait le fond du propos de l'auteur Franco Mancuso architecte et urbaniste de renom dont l'acuité du regard technique historique critique offre au lecteur de comprendre Venise comme peu d'ouvrages le lui permettent Une ville non pas une image un prétexte n'est qu'un conservatoire de temps et de souvenirs une bizarrerie sentimentale un tableau romantique ou une méditation sur la mort et ses masques ce qu'elle fut trop souvent et chez trop d'esprits pour que l'auteur ait pu s'en soucier Non une ville où l'on vit une ville bien actuelle aussi la Venise que l'on voit invitant la vie qu'on peut y mener que ses habitants y mènent concrètement et surtout au déchiffrement de ses formes de la manière dont elle s'est construite et dont elle continue d'exister Mais bien sûr ce n'est pas n'importe quelle ville pas seulement parce qu'une cité lagunaire n'est pas chose fréquente et que l'est moins encore une telle richesse historique architecturale artistique Mais aussi parce qu'elle n'a cessé d'inventer sa façon propre d'être une ville dans les conditions où elle se trouvait D'où l'immense intérêt de l'ouvrage de
