Desegregating the Dollar Robert E. Weems, 1998-02-01 Capitalism and slavery stand as the two economic phenomena that have most clearly defined the United States Yet despite African Americans nearly 500 billion annual spending power surprisingly little attention has been devoted to the ways U S businesses have courted black dollars in post slavery America Robert E Weems Jr presents the first fully integrated history of black consumerism over the course of the last century The World War I era Great Migration of African Americans from the rural South to northern and southern cities stimulated initial corporate interest in blacks as consumers A generation later as black urbanization intensified during World War II and its aftermath the notion of a distinct profitable African American consumer market gained greater currency Moreover black socioeconomic gains resulting from the Civil Rights movement which itself featured such consumer justice protests as the Montgomery Bus Boycott further enhanced the status and influence of African American shoppers Unwilling to settle for facile answers Weems explores the role of black entrepreneurs who promoted the importance of the African American consumer market to U S corporations Their actions ironically set the stage for the ongoing destruction of black owned business While the extent of educational employment and residential desegregation remains debatable African American consumer dollars have by any standard been fully incorporated into the U S economy Desegregating the Dollar takes us through the blaxploitation film industry the vast market for black personal care products and the insidious exploitation of black urban misery by liquor and cigarette advertisers Robert E Weems Jr has given us the definitive account of the complicated relationship between African Americans capitalism and consumerism
