Tibet Through Dissident Chinese Eyes: Essays on Self-determination James D. Seymour, Cao Changching, 2016-09-16 Although there have been numerous publications that argue the merit of Chinese rule over Tibet and many more that argue for Tibetan self determination the world has not heard many Chinese voices supporting the latter view This book exposed the reader to just that perspective from no less famous writers and activists than Wei Jingsheng Yan Jiaqi Shen Tong Wang Rouwang and others Though theirs is the view of a small minority of Chinese history may still record the publication of these essays as a milestone in the history of this issue *Tibet Through Dissident Chinese Eyes* Changqing Cao, James D. Seymour, 1998 This text exposes the reader to Chinese supporters of Tibetan self determination including contributions from such writers and activists as Wei Jingsheng Yan Jiaqi Shen Tong and Wang Ruowang 西藏的未來與希望 西藏的未來與希望, 2013-01-01 1756 2007 763 *Forthcoming Books* Rose Arny, 1998-04 *Children's Books in Print*, 1993

Tibet Through Chinese Eyes, 1997 **China's Tibet?** Warren W. Smith Jr., 2008-05-16 This groundbreaking book explores China's efforts to assimilate Tibet in the process rewriting Tibetan history to conform to Beijing's goals Warren Smith provides the historical context for understanding the current situation through an overview of China's actual as opposed to its promised policies toward Tibet over time His clear-eyed appraisal of Chinese policy convincingly shows that the PRC's ultimate intention is assimilation rather than autonomy The author argues that Beijing fears that any genuine autonomy or dialogue with the Dalai Lama will fuel renewed nationalism in China's Tibet as the Chinese leadership calls its possession The book highlights China's past and current propaganda on Tibet to demonstrate China's sensitivity and defensiveness regarding the legitimacy of its rule It traces the history of Sino-Tibetan dialogue to show how China has tried to use it to defuse Tibetan exile and international criticism while making no concessions in regard to Tibetan autonomy In the absence of any solution Smith advocates the promotion of Tibet's right to self determination as the most viable strategy for sustaining international attention and maintaining the most essential elements of Tibetan national identity Smith's thoroughly informed work will be valuable not only to Tibet experts and students but also to the larger world of Tibet activists sympathizers and others attempting to understand China's policies *Voices from Tibet* Tsering Woeser, Lixiong Wang, 2014-01-01 *Voices from Tibet* assembles essays and reportage in translation that capture many facets of the upheavals wrought by a rising China upon a sacred land and its pious people With the TAR in a virtual lockdown after the 2008 unrest this book sheds important light on the simmering frustrations that touched off the unrest and Beijing's relentless control tactics in its wake The authors also interrogate long-standing assumptions about the Tibetans' political future Woeser's and Wang's writings represent a rare Chinese view sympathetic to Tibetan causes Their powerful testimony should resonate in many places confronting threats of cultural subjugation and economic domination by an external power **Tibet's Fate** Warren W. Smith Jr., 2023-03-15 *Tibet's Fate* examines the issue of the political fate of Tibet It is told by Tibetans themselves

as well as by the author from his own experiences The title is not meant to imply that the current fate of Tibet is an ultimate destiny or even that Tibet s fate is already decided It is only meant in the sense that if Tibet s fate is now determined it has been determined not by the Tibetan people but by those of China If it is to be determined by China then Tibet s fate is indeed to be an integral part of China However if Tibet s fate were to be decided by the Tibetan people if they were allowed their right to national self determination then it would definitely be different Given all the criteria for independent statehood territory culture language religion and government Tibet surely should be an independent state Tibetan territory defined by altitude was the very nearly exclusively habitation of people who identified themselves as Tibetans Those people share a distinct culture language and religion They had a central government that directly administered the territory of Central Tibet and indirectly that of Kham and Amdo Had Tibetans been allowed to determine for themselves their political status that is if they had the right to self determination as specified in the most fundamental documents of international law there is no doubt that they would have chosen independence Whatever the flaws of the Tibetan social and political systems Tibet should have had the right to determine its own fate and could have done so until deprived of that right by China The book also examines the sensitive question of the nature of the Tibetan political system and its role in the fate that has befallen Tibet The author concludes that the Tibetan political system of Chosi Shungdrel or the unity of religion and politics is implicated in the failure of Tibet to maintain its independence
