Time Magazine Europecommunists At War:

A Specter Haunting Europe Paul Hanebrink, 2018-11-05 In the 20th century Europe was haunted by a specter of its own imagining Judeo Bolshevism Fear of a Jewish Bolshevik plot to destroy the nations of Europe took hold during the Russian Revolution and spread across the continent Paul Hanebrink shows that the myth of ethno religious threat is still alive today in Westerners fear of Muslims *British and American News Maps in the Early Cold War Period, 1945-1955* Jeffrey P. Stone, 2019-06-06 During the early years of the Cold War England and the United States both found themselves reassessing their relationship with their former ally the Soviet Union and the status of their own special relationship was far from certain As Jeffrey P Stone argues maps from British and American news journals from this period became a valuable tool for relating the new realities of the Cold War to millions of readers These maps were vehicles for political ideology revealing both obvious and subtle differences in how each country viewed global geopolitics at the onset of the Cold War Richly illustrated with news maps cartographic advertisements and cartoons from the era this book reveals the idiomatic political cultural and material differences contributing to these divergent cartographic visions of the Cold War world **The Big Three Allies and the European Resistance** Tommaso Piffer, 2024 While the Big Three and their continental Allies fought against Nazi Germany another war was under way on the continent the war to shape the political landscape of post war Europe In the Balkans the war overlapped with political and ethnic conflicts engulfing the region in bloody civil wars In Central and Eastern Europe partisan movements engaged the Germans without losing sight of the danger posed by the arrival of the Red Army In France and in Italy the adoption of the slogans of national liberation provided the communist parties with a formidable democratic legitimacy which established them as key players in the political lives of their countries The British and the Americans worked to stir up support control and direct these resistance groups London created the Special Operations Executive SOE and Washington the Office of Strategic Services OSS both of whom sent agents into occupied Europe to liaise directly with the guerilla groups Through the Comintern Moscow carefully coordinated the actions of the European communist parties with the foreign policy of the Soviet Union which was acting for the first time as a key player in the arena of international relations The forests and the mountains where the partisans were fighting the Germans soon became a major part of the proxy war that the Big Three waged to shift the post war geopolitical balance in their favour Looking for the first time at the Big Three in a comparative study and spanning Europe from Yugoslavia to Poland from Greece to France and Italy this book vividly depicts and sharply analyses how this proxy war shaped the history of the post war settlement In so doing Piffer deftly connects high political histories with history from below making the book important reading for all those interested in the history of the war and cold war communism and Resistance and diplomacy and intelligence *American Labour's Cold War Abroad* Anthony Carew, 2018-09-21 During the Cold War American labour organizations were at the centre of the battle for the hearts and minds of working people At a time when trade unions were a

substantial force in both American and European politics the fiercely anti communist American Federation of Labor Congress of Industrial Organizations AFL CIO set a strong example for labour organizations overseas The AFL CIO cooperated closely with the US government on foreign policy and enjoyed an intimate if sometimes strained relationship with the CIA The activities of its international staff and especially the often secretive work of Jay Lovestone and Irving Brown whose biographies read like characters plucked from a Le Carr novel exerted a major influence on relationships in Europe and beyond Having mastered the enormous volume of correspondence and other records generated by staffers Lovestone and Brown Carew presents a lively and clear account of what has largely been an unknown dimension of the Cold War In impressive detail Carew maps the international programs of the AFL CIO during the Cold War and its relations with labour organizations abroad in addition to providing a summary of the labour situation of a dozen or more countries including Finland France Italy Germany Japan Greece and India American Labour's Cold War Abroad reveals how the Cold War compelled trade unionists to reflect on the role of unions in a free society Yet there was to be no meeting of minds on this and at the end of the 1960s the AFL CIO broke with the mainstream of the international labour movement to pursue its own crusade against communism
