McCarron, 2022-01-03 Narratives of Addiction Savage Usury is the first book to argue in the face of more than a century s received wisdom that drug addiction and alcoholism are undoubtedly evidence of individual moral flaws However the sense of morality that underlies this book is completely severed from Christianity Instead it is influenced in particular by the writings of the nineteenth century German philosophers Arthur Schopenhauer and Frederick Nietzsche both of whom insisted that a genuine morality was actually incompatible with Christianity The sequence of chapters moves from addictions on the streets into rehab clinics and finally into the meetings of Alcoholics Anonymous and Narcotics Anonymous This is the first book to argue that the search for pleasure drives alcoholism and drug addiction and not the numbing of pain Throughout the book I reject the claims of the medical profession as embodied by the American Medical Association that drug addiction and alcoholism are diseases and further argue that they do not have the authority to tell hundreds of millions of Americans that addiction is not a moral failing I also query throughout the book the claims of neuroscience psychology and the social sciences that addictions to alcohol and drugs are attributable to causes that their specific disciplines are best suited to understand I argue that there is nothing complex about addiction it is a simple behavioural disorder The language routinely employed to discuss addiction is similarly not complex just confused and so it is also the rhetoric of addiction discourse especially its use of simile metaphor and euphemism that this book evaluates **Gotcha Again for Guys!** Kathleen A.

Reading Autobiography Now Sidonie Smith, Julia Watson, 2024-07-09. A user-friendly guide to reading, writing, and theorizing autobiographical texts and practices for students, scholars, and practitioners of life narrative. The boom in autobiographical narratives continues apace. It now encompasses a global spectrum of texts and practices in such media as graphic memoir, auto photography, performance, and plastic arts, film, and video, and online platforms. *Reading Autobiography Now* offers both a critical engagement with life narrative in historical perspective and a theoretical framework for interpreting texts and practices in this wide-ranging field. Hailed upon its initial publication as the Whole Earth Catalog of autobiography studies, this essential book has been updated, reorganized, and expanded in scope to serve as an accessible and contemporary guide for scholars, students, and practitioners. Sidonie Smith and Julia Watson explore definitions of life narrative, probe issues of subjectivity, and outline salient features of autobiographical acts and practices. In this updated edition, they address emergent topics such as autotheory, autofiction, and autoethnography; expand the discussions of identity, relationality, and agency; and introduce new material on autobiographical archives and the profusion of I's in contemporary works. Smith and Watson also provide a helpful toolkit of strategies for reading life narrative and an extensive glossary of mini-essays analyzing key theoretical concepts and dozens of autobiographical genres. An indispensable exploration of this expansive transnational multimedia field, *Reading Autobiography Now* meticulously unpacks the heterogeneous modes of life narratives through which people tell their stories, from traditional memoirs and trauma narratives to collaborative life narrative and autobiographical comics.

Starting from Scratch Sarah Ludwig, 2011-06-16. Create a successful, vibrant, and youth-centered teen services program with this practical, comprehensive guide, even when resources are limited. In order to develop a young adult department from the ground up, librarians need to be informed about a myriad of interrelated tasks and responsibilities: creating policies, purchasing materials, program scheduling, outreach, and budgeting. Even for libraries that already have teen-oriented materials within their facilities, keeping them current and fresh is a challenge, especially when budget or physical space is an issue. *Starting from Scratch: Building a Teen Library Program* is an instrumental resource for librarians who are either entering an established teen program with no previous experience or establishing a new teen program in a library. It covers all steps in the process of becoming a successful teen librarian, from getting the job and advocating for a teen department to adding qualified staff and ongoing professional development.
