The Failure of Environmental Education (And How We Can Fix It) Charles Saylan, Daniel Blumstein, 2011-05-25 At a time when wild places everywhere are vanishing before our eyes Charles Saylan and Daniel T Blumstein offer this passionate indictment of environmental education along with a new vision for the future Writing for general readers and educators alike Saylan and Blumstein boldly argue that education today has failed to reach its potential in fighting climate change biodiversity loss and environmental degradation In this forward looking book they assess the current political climate including the No Child Left Behind Act a disaster for environmental education and discuss how education can stimulate action including decreasing consumption and demand developing sustainable food and energy sources and addressing poverty Their multidisciplinary perspective encompasses such approaches as school gardens using school buildings as teaching tools and the greening of schoolyards Arguing for a paradigm shift in the way we view education as a whole The Failure of Environmental Education demonstrates how our education system can create new levels of awareness and work toward a sustainable future

battle with the Dutch Reformed Church Laurie Gaum, Chris Jones, 2021-08-12 At the beginning of 2017 the backlash cycle was in full swing in church denominations in South Africa as far as embracing sexual diversity was concerned In 2015 a momentous decision by the General Synod of the Dutch Reformed Church DRC embracing inclusivity in allowing LGBTIQA ministers to not be celibate and its ministers to officiate same sex marriages surprised friend and foe But this was reversed a year later in an Extraordinary General Synod of the church The disappointing outcome of the De Lange v Methodist Church of Southern Africa case had just been handed down by the Constitutional Court and the Anglican Church s stalling on fully affirming sexual diversity continued **The Causes of War** Alexander Gillespie, 2023-12-14 This is the fifth volume in a

Wald, Allison Calhoun-Brown, 2018-01-23 Using an evidenced based social scientific approach to religion Kenneth D Wald and Allison Calhoun Brown challenge the perception that religious influence in American politics is a problem to be solved Instead they contend that religion is a form of social identification that not only shapes our ideas about politics but it also shapes the behavior of political elites and ordinary citizens the interpretation of public laws and the development of government programs Ultimately the authors show how religion plays a fascinating and crucial role in our nation's political process and in our culture at large The eighth edition of *Religion and Politics in the United States* has been fully updated to include the latest scholarship and coverage of the 2016 presidential election It also features a new discussion of the religious right center and left as well as the impact of religion on the fight for equality based on gender and sexual orientation Additional student resources include all new discussion questions and further readings at the end of each chapter as well as a companion website featuring self quizzes *Foreign Relations of the United States* United States. The Conflict Within Islam Israr Hasan, 2011-12-23 This is not a book of history it does not claim to cover every aspect of Islam religion It confines itself to the search for the true mission of Islam and how that mission has been hijacked in the struggle of faith and power This is the story of contest between religion and politics where politics was made a sacrament and religion abused In describing this aspect the historical part naturally cannot be ignored This is not a book of religion either Since religion and politics overlap each other in this study theology and jurisprudence have their interplay also The conflict within Islam for the soul of Islam continues Will the struggle be resolved in the present and the foreseeable future Or will it make life more difficult for the faithful This book attempts to find the answers Encyclopedic Dictionary of Cults, Sects, and World Religions Larry A. Academic Freedom Robert J. Cegle, Sherwood Thompson, 2021-04-16 Framed in the context of a world in which academic freedom is often jeopardized or criticized by outside social forces, Academic Freedom: Autonomy, Challenges, and Conformation sets out to echo the voices of faculty who have encountered challenges to academic freedom within their personal and professional careers.

The Prince of Shambala Tsangtruk Topla, 2022-03-16 Self-serving, fat businessman or wise negotiator? The most thorough research on the tenth Panchen Lama to date examines as many oral and written records as possible in several languages to examine the entire life and work of the Tenth Panchen Lama, who chose to stay in Tibet to help alleviate the suffering of the Tibetan people after His Holiness the Dalai Lama was forced to leave. In this fresh study, we look at his early life, his family, education, the politics at the time, and the conflicts around the recognition process. We look at the extent of his projects, work, negotiations with Chinese leaders and authorities, controversies, and insults, and his deep commitment to the culture, language, education, and wellbeing of the people of Tibet, as well as Tibetan Buddhism. It examines all possible records of his relationship, faith in, and contact with His Holiness, his advice and guidance to representatives from Exile, his many works, and his longstanding commitment to protecting Tibetan people in dangerous times. This is a riveting study of one of Tibet's major religious and diplomatic figures: his life, work, imprisonment, marriage, and untimely death in highly suspicious circumstances in the 20th century. Chaos and challenges of Tibet, a nation cruelly silenced and largely destroyed under Chinese occupation. Such an extensive study is timely as we move into a new era of dialogue and talks. The skill, intelligence, strength, power, and wisdom of Panchen Lama saved many lives and helped create pathways for negotiation with Chinese leaders and authorities.

Freedom in the World 2014 Freedom House, 2014-12-11

Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard setting for comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual

professional contacts and visits to the region in conducting their research The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights and these standards are applied to all countries and territories irrespective of geographical location ethnic or religious composition or level of economic development
