[A Short History of Fantasy](#) Farah Mendlesohn, Edward James, 2012-06-27. Some of the earliest books ever written, including *The Epic of Gilgamesh* and *the Odyssey*, deal with monsters, marvels, extraordinary voyages, and magic, and this genre, known as fantasy, remained an essential part of European literature through the rise of the modern realist novel. Tracing the history of fantasy from the earliest years through to the origins of modern fantasy in the 20th century, this account discusses contributions decade by decade, from Tolkien's *Lord of the Rings* trilogy and Lewis's *Narnia* books in the 1950s to J.K. Rowling's *Harry Potter* series. It also discusses and explains fantasy's continuing and growing popularity.

[A Companion to the Fairy Tale](#) Hilda Roderick Ellis Davidson, Anna Chaudhri, 2003. Introduction by Derek Brewer. The aim of this book is to discuss the characteristics of the traditional fairy tale in Europe and North America and various theories of its development and interpretation. The book deals with the main collections, the Grimm brothers, Hans Andersen, Perrault, and Afanes, and with the development of tales in various regions of Europe, including Ireland, Wales, Scandinavia, Germany, and Russia, as well as India, where it was once claimed that they originated. The subject of the fairy tale is a controversial one; problems discussed here include the relationship between tales recorded from story tellers and literary works, the importance of printed works for the spread of the tales, the growth of recent examples with a feminine approach, the spread of popular tales like *Cinderella*, special types like the cumulative tales, possible effects of TV, and the nature of traditional plots and characters. Above all, we have been concerned with the distribution and long survival of these tales and the nature of their appeal.

[Performing Identities and Utopias of Belonging](#) Teresa Botelho, Iolanda Ramos, 2014-07-08. *Performing Identities and Utopias of Belonging* consists of sixteen essays reflecting the current conflicted debate on the ontology, constructiveness, and affect of categories of ascribed social identity such as gender, ethnicity, race, and nation in the context of British, Irish, and North American cultural landscapes. They address the many ways in which these communities of belonging are imagined, iterated, performed, questioned, and deconstructed in literature, cinema, and visual culture; they also support or counter claims about the enhanced value of social identity in the expression of the self in the light of the present debates that

surround the contested post identity turn in cultural studies. Significantly they also address the role of social identity in the field of utopian and dystopian thought focusing on the projection of imagined futures where alternative means of conceiving ascribed identity are conceptualized. The contributions are shaped by a plurality of approaches and theoretical discourses and come from both established and emerging scholars and researchers from Europe and beyond. The collection is structured in three sections: the politics of unbelonging, deconstructing utopian and cultural paradigms and performing identities in the visual arts which organize the multidisciplinary discussions around specific nuclei of interrogations.

The Land of Stories: Beyond the Kingdoms Chris Colfer, 2015-07-07 Fairy tales are just the beginning. The Masked Man is on the loose in the Land of Stories and it's up to Alex and Conner Bailey to stop him.

except Alex has been thrown off the Fairy Council and no one will believe they're in danger. With only the help of the ragtag group of Goldilocks, Jack, Red Riding Hood, and Mother Goose, and her gander Lester, the Bailey twins discover the Masked Man's secret scheme: he possesses a powerful magic potion that turns every book it touches into a portal, and he is recruiting an army of literature's greatest villains. So begins a race through the magical Land of Oz, the fantastical world of Neverland, the madness of Wonderland, and beyond. Can Alex and Conner catch up to the Masked Man, or will they be one step behind until it's too late? Fairy tales and classic stories collide in the fourth adventure in the bestselling Land of Stories series as the twins travel beyond the kingdoms.

The Fairy-Tale Vanguard Stijn Praet, 2019-07-08 Ever since its early modern inception as a literary genre unto its own, the fairy tale has frequently provided authors with a textual space in which to reflect on the nature, status, and function of their own writing, and that of literature in general. At the same time, it has served as an ideal laboratory for exploring and experimenting with the boundaries of literary convention and propriety. While scholarship pertaining to these phenomena has focused primarily on the fairy tale adaptations and deconstructions of postmodernist writers, this essay collection adopts a more diachronic approach. It offers fairy tale scholars and students a series of theoretical and literary historical expositions, as well as case studies on English, French, German, Swedish, Danish, and Romanian texts from the seventeenth to the twenty-first century by authors as diverse as Marie Catherine d'Aulnoy, Ricki Ducornet, Hans Christian Andersen, and Robert Coover.

Mom's List St. John Greene, 2013-04-02 As inspiring as *The Last Lecture*, an unforgettable memoir that reminds us all to live each day with adventure and joy. For Kate Greene, nothing was as important as her two little boys, Reef and Finn, and her loving husband, St. John, known as Singe. Together they shared a wonderfully happy family life until Kate was diagnosed with incurable breast cancer. During her final days, Kate created what she called Mum's List. She included simple things like look for four-leaf clovers and take them for walks along mummy's favorite beach. The list became Singe's rock. Mom's List is the book that Singe never wanted to write, but in sharing the wisdom and inspiration that buoyed him during his darkest hours, he pays tribute to his beloved wife and the life she dreamed of for their sons after she was gone.

Children's Literature and Learner Empowerment Janice Bland, 2013-08-29 Children's literature can be a powerful way to encourage and empower EFL students, but is less commonly used in the classroom than adult literature. This text provides a comprehensive introduction to children's and young adult literature in EFL teaching. It demonstrates the complexity of children's literature and how it can encourage an active community of second language readers with multilayered picturebooks, fairy tales, graphic novels, and radical young adult fiction. It examines the opportunities of children's literature in EFL teacher education, including the intertextuality of children's literature as a gate opener for canonised adult literature, the rich patterning of children's literature supporting Creative Writing, the potential of interactive drama projects. Close readings of texts at the centre of contemporary literary scholarship, yet largely unknown in the EFL world, provide an invaluable guide for teacher educators and student teachers, including

works by David Almond Anthony Browne Philip Pullman and J K Rowling Introducing a range of genres and their significance for EFL teaching this study makes an important new approach accessible for EFL teachers student teachers and teacher educators
