From 1957 to 1970 he was public relations adviser with the National Investigations Committee on Aerial Phenomena NICAP. Later on he was Director of Public Relations and a board member of the Mutual UFO Network MUFON. He was also a regional investigator for the Center for UFO Studies directed by Dr J Allen Hynek. existence of Area 51 is barely the tip of a very big iceberg *Paranormal America* Christopher D. Bader, F. Carson Mencken, Joseph O. Baker, 2011-01-05 A significant number of Americans spend their weekends at UFO conventions hearing whispers of government cover ups at New Age gatherings learning the keys to enlightenment or ambling around historical downtowns learning about resident ghosts in tourist targeted ghost walks They have been fed a steady diet of fictional shows with paranormal themes such as The X Files Supernatural and Medium shows that may seek to simply entertain but also serve to disseminate paranormal beliefs The public hunger for the paranormal seems insatiable Paranormal America provides the definitive portrait of Americans who believe in or have experienced such phenomena as ghosts Bigfoot UFOs psychic phenomena astrology and the power of mediums However unlike many books on the paranormal this volume does not focus on proving or disproving the paranormal but rather on understanding the people who believe and how those beliefs shape their lives Drawing on the Baylor Religion Survey a multi year national random sample of American religious values practices and behaviors as well as extensive fieldwork including joining hunts for Bigfoot and spending the night in a haunted house authors Christopher Bader F Carson Mencken and Joseph Baker shed light on what the various types of paranormal experiences beliefs and activities claimed by Americans are whether holding an unconventional belief such as believing in Bigfoot means that one is unconventional in other attitudes and behaviors who has such experiences and beliefs and how they differ from other Americans and if we can expect major religions to emerge from the paranormal Brimming with engaging personal stories and provocative findings Paranormal America is an entertaining yet authoritative look at a growing segment of American religious culture *A Covert Agenda* Nicholas Redfern, 1997 This text describes how the government has been concealing the evidence of routine penetration of British airspace by rationally controlled machines from outside Earth over which the military infrastructure has little or no control It suggests that there is evidence that there has been an official shift in policy and that there is a desire to disseminate to the public top secret UFO data collected over the past 50 years Having examined the available evidence the author is convinced that there is an active alien presence on the Earth and that official confirmation of such a presence will soon be forthcoming **The Mammoth Book of UFOs** Lynn Picknett, 2012-03-01 The ultimate guide to the history background and meaning of whether UFOs really exist plus associated phenomena such as alien abduction crop circles and cattle mutilations There is also a comprehensive overview of the many conspiracy theories which surround UFOs and abductions from the craft as secret Nazi technology to weird CIA plots Written by a ufologist with many years in the field this exciting and highly provocative book at times reads like a thriller What messages do UFOs hold for us and for the future of life on earth Nova revija , 1997
