McLaren, 2018-07-24 This book constitutes the thoroughly refereed proceedings of the 9th International Conference on Computer Supported Education CSEDU 2017 held in Porto Portugal in April 2017 The 22 revised full papers were carefully reviewed and selected from 179 submissions The papers deal with the following topics new educational environments best practices and case studies of innovative technology based learning strategies institutional policies on computer supported education including open and distance education Envisioning the Future of Education Through Design Ronghuai Huang, Dejian Liu, Michael Agyemang Adarkwah, Huanhuan Wang, Boulus Shehata, 2024-04-10 This book identifies the educational problems and issues that could be solved by design and discusses how to overcome these challenges by adopting a design thinking approach The chapters cover topics such as opportunities and challenges for the futures of education the emerging models of design thinking for education learning activity design educational design for learning with special needs designing learning spaces of the future designing the classroom of the future the design of authentic learning and design of elderly education It aims to assist educators and various stakeholders e g administrators practitioners researchers teachers and students in the educational field to realize the importance of design in education and enables them to use design and design thinking to overcome the educational challenges to achieve sustainable development Understanding Student Learning Noel James Entwistle, Paul Ramsden, 1983 The purpose of the research program described here was to investigate college students approaches to learning and to determine the extent to which these reflected the effects of teaching and assessment demands rather than representing relatively stable characteristics of the individual learners There were six main areas within the program 1 the measurement of approaches to and styles of studying 2 the exploration of the cognitive skills cognitive styles and personality characteristics underlying different approaches to studying 3 the extension of Marton's work on reading academic articles 4 the identification of students perceptions of the academic climate of departments 5 the use of interviews to investigate students strategies in carrying out particular types of

academic task and 6 an investigation of how contrasting academic contexts appear to affect the approaches to studying adopted by students in those departments Details of each of these areas of research are presented BW **Advances in Internet, Data and Web Technologies** Leonard Barolli,Fatos Xhafa,Zahoor Ali Khan,Hamad Odhabi,2019-02-05 This book presents original contributions on the theories and practices of emerging Internet Data and Web technologies and their applications in businesses engineering and academia As a key feature it addresses advances in the life cycle exploitation of data generated by digital ecosystem technologies The Internet has become the most proliferative platform for emerging large scale computing paradigms Among these Data and Web technologies are two of the most prominent paradigms manifesting in a variety of forms such as Data Centers Cloud Computing Mobile Cloud Mobile Web Services and so on These technologies altogether create a digital ecosystem whose cornerstone is the data cycle from capturing to processing analysis and visualization The need to investigate various research and development issues in this digital ecosystem has been made even more pressing by the ever increasing demands of real life applications which are based on storing and processing large amounts of data Given its scope the book offers a valuable asset for all researchers software developers practitioners and students interested in the field of Data and Web technologies Student Learning and Academic Understanding Noel Entwistle,2018-06-13 The research described in Student Learning and Academic Understanding had its origins in the pioneering work of Ausubel Bruner and McKeachie and followed two complementary lines of development The first line extended the ideas of Marton on approaches to learning through an inventory designed to assess these approaches among large samples of students and using in depth interviews with students about their experiences of academic understanding The second line drew on a range of studies to explore the influences of university teaching and the whole teaching learning environment on the quality of student learning Taking the research as a whole shows the value of complementary research approaches to describing student learning while the findings brought together in the final chapter suggest ways of supporting deep approaches and the development of personal academic understanding among students Student Learning and Academic Understanding covers a wide range of concepts that have emerged from interviews in which students use their own experiences to describe how they study and what they find most useful in developing an academic understanding of their own These concepts differ from the traditional psychological concepts by being focused on the specific contexts of university and college although they are also relevant to the later stages of school education Explains the origins meanings and relevance of deep and surface approaches to learning Introduces an array of concepts derived from the specific contexts of university education Illustrates how in depth interviewing can be used to explore students ways of thinking Provides a series of heuristic models to guide thinking about the influences on student learning Includes an inventory on approaches to studying and experiences of teaching for use by teachers **Register of Educational Research in the United Kingdom** ,1995 **Handbook of Educational Ideas and Practices (Routledge Revivals)** Noel Entwistle,2015-08-11 First

published in 1990 the Handbook of Educational Ideas and Practices was written for practitioners and students in the field of education and its related services and was designed to appeal to educationists no matter what their nationality Focusing mainly on compulsory schooling it provides summaries of the thinking research findings and innovatory practices current at the time However the book is also careful to present a complete picture of education and therefore includes a separate section for education beyond school which covers pre school level post secondary level and adult and continuing education There are also other chapters dealing with aspects of organization curriculum and teaching in various forms of tertiary education Indeed each topic has been discussed by an acknowledged expert writing in sufficient detail in order to resist trivialization
