The new world; problems in political geography Isaiah Bowman, 1924 **The New World** Isaiah Bowman, 1921 Care and Capitalism

Kathleen Lynch, 2021-12-09 The logics and ethics of neoliberal capitalism dominate public discourses and politics in the early twenty first century They morally endorse and institutionalize forms of competitive self interest that jettison social justice values and are deeply antithetical to love care and solidarity But capitalism is neither invincible nor inevitable While people are self interested they are not purely self interested they are bound affectively and morally to others even to unknown others The cares loves and solidarity relationships within which people are engaged give them direction and purpose in their daily lives They constitute cultural residuals of hope that stand ready to move humanity beyond a narrow capitalism centric set of values In this instructive and inspiring book Kathleen Lynch sets out to reclaim the language of love care and solidarity both intellectually and politically and to place it at the heart of contemporary discourse Her goal is to help unseat capital at the gravitational centre of meaning making and value thereby helping to create logics and ethical priorities for politics that are led by care love and solidarity

A Handbook of Political Geography Dr. Sanjay Kumar, 2021-08-14 A HANDBOOK OF POLITICAL GEOGRAPHY Political geography is the field of human geography that is concerned with the study of both the spatially uneven outcomes of political processes and the ways in which political processes are themselves affected by spatial structures Conventionally political geography adopts a three scale structure for the purposes of analysis with the study of the state at the centre above this is the study of international relations or geopolitics and below it is the study of localities The primary concerns of the sub discipline can be summarised as the inter relationships between people state and territory The origins of political geography lie in the origins of human geography itself and the early practitioners were concerned mainly with the military and political consequences of the relationships between physical geography state territories and state power In particular there was a close association with regional geography with its focus on the unique characteristics of regions and environmental determinism with its emphasis on the influence of the physical environment on human activities Critical political geography is mainly concerned with the criticism of traditional political geographies vis a vis modern trends As with much of the move towards Critical geographies the arguments have drawn largely from postmodern post structural and postcolonial theories Updating the prospects of the students of political geography this encyclopedia takes the development of the past century
