the innovative and transformative work now being published in the field's independent journals *Applied Pedagogies*

Daniel Ruefman, Abigail G. Scheg, 2016-04-15 Teaching any subject in a digital venue must be more than simply an upload of the face to face classroom and requires more flexibility than the typical learning management system affords *Applied Pedagogies* examines the pedagogical practices employed by successful writing instructors in digital classrooms at a variety of institutions and provides research grounded approaches to online writing instruction This is a practical text providing ways to employ the best instructional strategies possible for today's diverse and dynamic digital writing courses Organized into three sections Course Conceptualization and Support Fostering Student Engagement and MOOCs chapters explore principles of rhetorically savvy writing crossed with examples of effective digital teaching contexts and genres of digital text Contributors consider not only pedagogy but also the demographics of online students and the special constraints of the online environments for common writing assignments The scope of online learning and its place within higher education is continually evolving *Applied Pedagogies* offers tools for the online writing classrooms of today and anticipates the needs of students in digital contexts yet to come This book is a valuable resource for established and emerging writing instructors as they continue to transition to the digital learning environment Contributors Kristine L Blair Jessie C Borgman Mary Lynn Chambers Katherine Ericsson Chris Friend Tamara Girardi Heidi Skurat Harris Kimberley M Holloway Angela Laflen Leni Marshall Sean Michael Morris Danielle Nielsen Dani Nier Weber Daniel Ruefman Abigail G Scheg Jesse Stommel The Routledge Handbook of Vegan Studies Laura Wright, 2021-03-31 This wide ranging volume explores the tension between the dietary practice of veganism and the manifestation construction and representation of a vegan identity in today's society Emerging in the early 21st century vegan studies is distinct from more familiar conceptions of animal studies an umbrella term for a three pronged field that gained prominence in the late 1990s and early 2000s consisting of critical animal studies human animal studies and posthumanism While veganism is a consideration of these modes of inquiry it is a decidedly different entity an ethical delineator that for many scholars marks a complicated boundary between theoretical pursuit and lived experience The Routledge Handbook of Vegan Studies is the must have reference for the important topics problems and key debates in the subject area and is the first of its kind Comprising over 30 chapters by a team of international contributors this handbook is divided into five parts History of vegan studies Vegan studies in the disciplines Theoretical intersections Contemporary media entanglements Veganism around the world These sections contextualize veganism beyond its status as a dietary choice situating veganism within broader social ethical legal theoretical and artistic discourses This book will be essential reading for students and researchers of vegan studies animal studies and environmental ethics **Understanding Rhetoric** Eamon M. Cunningham, 2020-01-01 Understanding Rhetoric A Guide to Critical Reading and Argumentation is a composition textbook that outlines three essential skills rhetoric argument and source based writing geared towards newcomers and advanced students alike Though comprehensive in its coverage the book's focus is a simple one how to move

beyond a gut reaction while reading to an articulation of what is effective and what is not while explicitly answering the most important question of Why This text gets at this central concern in two fundamental ways First the text teaches composition as a cumulative process coaching you how to question challenge and expand on not just the readings you hold in your hands but also how to interrogate the internal processes of writing and thinking The book s blend of composition methods detail the cross point of product and process to turn reading and writing from a matter of coming up with answers to questions to learning what type of questions need to be asked in the first place The right questions the text argues are fundamentally rhetorical in nature Second the content of the practice based chapters is framed into a larger mesh of intellectual history to show how the writing and thinking you are doing today is continuous with a long history of writing instruction that goes back to the ancient world This book provides equal representation from classical and contemporary theory with the recognition that theory cannot be fully grasped without practice and practice cannot be fully understood without its theoretical antecedent After all you can t write outside the box until you know where the box is and what it looks like

Rhetorical Machines John Jones,Lavinia Hirsu,2019-07-02 A landmark volume that explores the interconnected nature of technologies and rhetorical practice Rhetorical Machines addresses new approaches to studying computational processes within the growing field of digital rhetoric While computational code is often seen as value neutral and mechanical this volume explores the underlying and often unexamined modes of persuasion this code engages In so doing it argues that computation is in fact rife with the values of those who create it and thus has powerful ethical and moral implications From Socrates s critique of writing in Plato s Phaedrus to emerging new media and internet culture the scholars assembled here provide insight into how computation and rhetoric work together to produce social and cultural effects This multidisciplinary volume features contributions from scholar practitioners across the fields of rhetoric computer science and writing studies It is divided into four main sections Emergent Machines examines how technologies and algorithms are framed and entangled in rhetorical processes Operational Codes explores how computational processes are used to achieve rhetorical ends Ethical Decisions and Moral Protocols considers the ethical implications involved in designing software and that software s impact on computational culture and the final section includes two scholars responses to the preceding chapters Three of the sections are prefaced by brief conversations with chatbots autonomous computational agents addressing some of the primary questions raised in each section At the heart of these essays is a call for emerging and established scholars in a vast array of fields to reach interdisciplinary understandings of human machine interactions This innovative work will be valuable to scholars and students in a variety of disciplines including but not limited to rhetoric computer science writing studies and the digital humanities

Facilitating Effective Communication in School-Based Meetings Jason R. Parkin,Ashli D. Tyre,2021-09-05 This book offers guidance for school based professionals participating in the special education process It provides a foundation for effective oral communication and meeting facilitation in team meetings while highlighting methods

to enhance collaboration between educators and families School psychologists across the United States share how they structure meetings provide examples for how to communicate educational and psychological concepts and describe personas they present to support the meeting process Chapters present a sequential facilitation process for school psychologist led meetings and apply that process to problem solving suspicion of disability eligibility feedback IEP and manifestation determination meetings Within each chapter featured practitioners describe ways to address common challenges that arise Aimed at graduate students and professionals this text is a unique example based resource to enhance readers ability to facilitate and participate in the special education process **Graduate Students at Work** Tessa Brown,2023-02-28

Graduate Students at Work highlights the expertise and experiences of graduate students to demonstrate what graduate study entails what it makes possible and what it constrains in the context of corporatizing higher education This collection of full length research articles and short personal essays illustrates graduate students experiences organizing tactics and strategies for staying in or moving out of the academy Speaking from personal experience as well as reporting research findings the contributors of Graduate Students at Work illustrate the significant expertise that graduate students are asked to enact in their time intensive jobs as teachers researchers and administrators even as they are kept in poverty wages for the decade or so it takes to move through a master s and doctoral program into the promised land of a tenure track job While these students are the leaders of the academic labor movement they have yet to receive as much attention as adjunct instructors and other laborers in the university system Though they experience harassment discrimination and exploitation graduate students rarely have access to labor protections because they are often misclassified as students not employees a key rhetorical strategy universities use to fight graduate student organizing These essays and articles also draw insightful connections between the labor conditions of graduate student workers and other workers navigating poverty wages labor migration limited benefits and harassment and discrimination around lines of race gender ability and citizenship the most important connection perhaps being the possibility for organization and unionization to fight for better working conditions for all **Creating Comics as Journalism, Memoir and Nonfiction** Randy Duncan,Michael Ray Taylor,David

Stoddard,2015-10-08 This book provides student journalists artists designers creative writers and web producers with the tools and techniques they need to tell nonfiction stories visually and graphically Weaving together history theory and practical advice seasoned nonfiction comics professors and scholars Randy Duncan Michael Ray Taylor and David Stoddard present a hands on approach to teach readers from a range of backgrounds how to develop and create a graphic nonfiction story from start to finish The book offers guidance on how to find stories and make use of appropriate facts and visuals nonfiction narrative techniques artist s tools and techniques print digital and multimedia production legal and ethical considerations Interviews with well known nonfiction comics creators and editors discuss best practices and offer readers inspiration to begin creating their own work and exercises at the end of each chapter encourage students to hone their skills

The Other Kind of Funnies Han Yu, 2016-12-14 The Other Kind of Funnies refutes the mainstream American cultural assumption that comics have little to do with technical communication that the former are entertaining in a low brow sense and juvenile whereas the latter is practical and serious to the point of stuffiness The first of its kind this book demonstrates the exciting possibilities of using comics in technical communication It defines comics as a medium and art form that includes cartoons comic strips comic books and graphic novels provides conceptual and historical backgrounds on comics and discusses the appeals and challenges of using comics style technical communication More specifically it examines comics style instructions educational materials health risk communication and political propaganda communication The author argues that comics style technical communication encourages reader participation produces covert persuasion facilitates intercultural communication benefits underprivileged audiences such as children and readers of lower literacy and challenges the positivist view of technical communication An abundance of comics style technical communication examples carefully selected from across cultures and times demonstrates the argument While the book proposes that comics can create user friendly visually oriented engaging and socially responsible technical communication it is also quick to acknowledge the limitations and challenges of comics style technical communication and provides heuristics on how to cope with them The Other Kind of Funnies is unique in its interdisciplinary approach It focuses on technical communication but speaks to design cultural and intercultural studies historical studies and to some extent education politics and art

Sexual Rhetorics Jonathan Alexander, Jacqueline Rhodes, 2015-10-16 Sexual rhetoric is the self conscious and critical engagement with discourses of sexuality that exposes both their naturalization and their queering their torquing to create different or counter discourses giving voice and agency to multiple and complex sexual experiences This volume explores the intersection of rhetoric and sexuality through the varieties of methods available in the fields of rhetoric and writing studies including case studies theoretical questioning ethnographies or close and distant readings of texts that help us think through the rhetorical force of sexuality and the sexual force of rhetoric
