Wendy Brown

Undoing The Demos Neoliberalisms Stealth Revolution Zone Near Futures:

Undoing the Demos Wendy Brown, 2015-02-06 This is a book for the age of resistance for the occupiers of the squares for the generation of Occupy Wall Street The premier radical political philosopher of our time offers a devastating critique of the way neoliberalism has hollowed out democracy

Undoing the Demos Wendy Brown, 2015-03-20 Neoliberal rationality ubiquitous today in statecraft and the workplace in jurisprudence education and culture remakes everything and everyone in the image of homo oeconomicus What happens when this rationality transposes the constituent elements of democracy into an economic register In vivid detail Wendy Brown explains how democracy itself is imperiled The demos disintegrates into bits of human capital concerns with justice cede to the mandates of growth rates credit ratings and investment climates liberty submits to the imperative of human capital appreciation equality dissolves into market competition and popular sovereignty grows incoherent Liberal democratic practices may not survive these transformations Radical democratic dreams may not either In an original and compelling theoretical argument Brown explains how and why neoliberal reason undoes the political form and political imaginary it falsely promises to secure and reinvigorate Through meticulous analyses of neoliberalized law political practices governance and education she charts the new common sense Undoing the Demos makes clear that far from being the lodestar of the twenty first century a future for democracy depends upon it becoming an object of struggle and rethinking

Austerity, Community Action, and the Future of Citizenship in Europe Shana

Cohen, Christina Fuhr, Jan-Jonathan Bock, 2018-10-17 The politics of austerity has seen governments across Europe cut back on welfare provision As the State retreats this edited collection explores secular and faith based grassroots social action in Germany and the United Kingdom that has evolved in response to changing economic policy and expanding needs from basic items such as food to more complex means to move out of poverty Bringing together scholars from different disciplines and practitioners in several areas of social intervention the book explores how the conceptualization and constitutive practices of citizenship and community are changing because of the retreat of the State and the challenge of meeting social and material needs creating new opportunities for local activism The book provides new ways of thinking about social and political belonging and about the relations between individual collective and State responsibility

Planet on Fire Mathew

Lawrence, Laurie Laybourn-Langton, 2021-04-20 As we rebuild our lives in the wake of Covid 19 and face the challenges of ecological disaster how can the left win a world fit for life Planet on Fire is an urgent manifesto for a fundamental reimagining of the global economy It offers a clear and practical road map for a future that is democratic and sustainable by design Laurie Laybourn Langton and Mathew Lawrence argue that it is not enough merely to spend our way out of the crisis we must also rapidly reshape the economy to create a new way of life that can foster a healthy and flourishing environment for all Planet on Fire offers a detailed and achievable manifesto for a new politics capable of tackling environmental

Making Citizenship Work Rodolfo Rosales, 2022-08-24 Making Citizenship Work seeks to address questions

of how a community reaches a place where it can actually make citizenship work A second question addressed is What does citizenship represent to different communities Across thirteen chapters a collection of experts traverse multiple disciplines in analyzing citizenship from different points of access Each chapter revolves around the premise that empowerment of communities and individuals within the community comes in different forms and is governed by multiple needs and visions Authors utilize case studies to demonstrate the different roles that communities from a broad sector of our society adopt to accomplish constructing democratic processes that reflect their goals needs and cultures Concurrently authors address the structural obstacles to the empowerment of communities arguing that the democratic process does not and cannot accommodate the diverse communities of society within a single universalistic model of citizenship They conclude that fundamentally citizenship is not simply a legal right an obligation a state of rights but a practice an action on the behalf of community Making Citizenship Work challenges conventional thinking about politics while also encouraging readers to go beyond the box that deters us from visualizing a human society It is an ideal book for undergraduate and graduate courses in political science sociology history social work and Ethnic Studies *Re-Defining Terrorism* Itoiz Rodrigo Jusué, 2025-06-04 Offering original insights into counter radicalisation s extensive effects Itoiz Rodrigo Jusu offers a complete and innovative examination of the development of counter radicalisation discourses and policies **In the Ruins of Neoliberalism** Wendy Brown, 2019-07-16 Across the West hard right leaders are surging to power on platforms of ethno economic nationalism Christianity and traditional family values Is this phenomenon the end of neoliberalism or its monstrous offspring In the Ruins of Neoliberalism casts the hard right turn as animated by socioeconomically aggrieved white working and middle class populations but contoured by neoliberalism s multipronged assault on democratic values From its inception neoliberalism flirted with authoritarian liberalism as it warred against robust democracy It repelled social justice claims through appeals to market freedom and morality It sought to de democratize the state economy and society and re secure the patriarchal family In key works of the founding neoliberal intellectuals Wendy Brown traces the ambition to replace democratic orders with ones disciplined by markets and traditional morality and democratic states with technocratic ones Yet plutocracy white supremacy politicized mass affect indifference to truth and extreme social disinhibition were no part of the neoliberal vision Brown theorizes their unintentional spurring by neoliberal reason from its attack on the value of society and its fetish of individual freedom to its legitimization of inequality Above all she argues neoliberalism s intensification of nihilism coupled with its accidental wounding of white male supremacy generates an apocalyptic populism willing to destroy the world rather than endure a future in which this supremacy disappears *Mutant Neoliberalism* William Callison, Zachary Manfredi, 2019-11-05 Tales of neoliberalism s death are serially overstated Following the financial crisis of 2008 neoliberalism was proclaimed a zombie a disgraced ideology that staggered on like an undead monster After the political ruptures of 2016 commentators were quick to announce the end of neoliberalism yet again pointing to both the global rise of

far right forces and the reinvigoration of democratic socialist politics But do new political forces sound neoliberalism's death knell or will they instead catalyze new mutations in its dynamic development Mutant Neoliberalism brings together leading scholars of neoliberalism political theorists historians philosophers anthropologists and sociologists to rethink transformations in market rule and their relation to ongoing political ruptures The chapters show how years of neoliberal governance policy and depoliticization created the conditions for thriving reactionary forces while also reflecting on whether recent trends will challenge reconfigure or extend neoliberalism's reach The contributors reconsider neoliberalism's relationship with its assumed adversaries and map mutations in financialized capitalism and governance across time and space from Europe and the United States to China and India Taken together the volume recasts the stakes of contemporary debate and reorients critique and resistance within a rapidly changing landscape Contributors include Balibar Sren Brandes Wendy Brown Melinda Cooper Julia Elyachar Michel Feher Megan Moodie Christopher Newfield Dieter Plehwe Lisa Rofel Leslie Salzinger Quinn Slobodian
