Unholy Alliance A History Of Nazi Involvement With The Occult:

Unholy Alliance Peter Levenda,1995 **Unholy Alliance** Peter Levenda,2002-05-24 Engagingly written Unholy Alliance is a comprehensive popular history of the occult background and roots of the Nazi movement showing how the ideas of a vast international network of late 19th and early 20th century occult groups influenced Nazi ideology Levenda takes readers through the teachings of Madame Blavatsky Aleister Crowley the Thule Gesellschaft the occult secret society that formed the ideological heart of the early Nazi Party the Order of the Golden Dawn and the Order of the Eastern Temple and demonstrates how each influenced Nazi ideology He also details the expedition to Tibet of the Ancestral Heritage Research and Teaching Society comprised of the same SS officers who would later be involved in grisly medical experiments on concentration camp prisoners Levenda traces the Nazis movements as they continued their activities after the war or morphed into neo Nazi skinhead and satanic groups such as the Christian Identity and White Aryan Resistance movements Levenda s is not only a major work of investigative reporting but also the striking story of the unholy alliance between politics and religion or politics and occultism that has dominated events in Europe and the Americas since World War I with all its implications for continuing racial and religious violence in Europe Asia and the Americas **Revisiting the "Nazi**

Occult" Monica Black,Eric Kurlander,2015 New collection of essays promising to re energize the debate on Nazism s occult roots and legacies and thus our understanding of German cultural and intellectual history over the past century Kundalini Tales Richard Sauder,1998-07 Sauder continues his studies of underground bases with new information on the occult underpinnings of the US space programme The book also contains a breakthrough section that examines actual US patents for devices that manipulate minds and thoughts from a remote distance Included are chapters on the secret space programme and a 130 page appendix of patents and schematic diagrams of secret technology and mind control devices

Reich of the Black Sun Joseph P. Farrell,2020-09-04 Why were the Allies worried about an atom bomb attack by the Germans in 1944 Why did the Soviets threaten to use poison gas against the Germans Why did Hitler in 1945 insist that holding Prague could win the war for the Third Reich Why did US General George Patton s Third Army race for the Skoda works at Pilsen in Czechoslovakia instead of Berlin Why did the US Army not test the uranium atom bomb it dropped on Hiroshima Why did the Luftwaffe fly a non stop round trip mission to within twenty miles of New York City in 1944 Reich of the Black Sun takes the reader on a scientific historical journey in order to answer these questions Arguing that Nazi Germany actually won the race for the atom bomb in late 1944 Reich of the Black Sun then goes on to explore the even more secretive research the Nazis were conducting into the occult alternative physics and new energy sources The book concludes with a fresh look at the Nazi Legend of the UFO mystery by examining the Roswell Majestic 12 documents and the Kecksburg crash in the light of parallels with some of the super secret black projects being run by the SS Reich of the Black Sun is must reading for the researcher interested in alternative history science or UFOs **Hitler's Monsters** Eric

Kurlander,2017-06-06 A dense and scholarly book about the relationship between the Nazi party and the occult reveals stranger than fiction truths on every page Daily Telegraph The Nazi fascination with the occult is legendary yet today it is often dismissed as Himmler s personal obsession or wildly overstated for its novelty Preposterous though it was however supernatural thinking was inextricable from the Nazi project The regime enlisted astrology and the paranormal paganism Indo Aryan mythology witchcraft miracle weapons and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion In this eye opening history Eric Kurlander reveals how the Third Reich s relationship to the supernatural was far from straightforward Even as popular occultism and superstition were intermittently rooted out suppressed and outlawed the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power shape propaganda and policy and pursue their dreams of racial utopia and empire Kurlander shows how swiftly irrational ideas can take hold even in an age before social media The Washington Post Deeply researched convincingly authenticated this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish The Spectator A trustworthy book on an extraordinary subject The Times A fascinating look at a little understood aspect of fascism Kirkus Reviews Kurlander provides a careful clear headed and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits National Review

The Lovecraft Code

Peter Levenda,2016-12-01 Drawing on decades of experience author and historian Peter Levenda turns to the novel as the best and perhaps only way to tell a story that has to be told that hidden within the tales of America s most iconic writer of gothic horror H P Lovecraft runs a vein of actual terror Gregory Angell the present day descendant of George Angell in Lovecraft s Call of Cthulhu is summoned by a nameless covert agency of the US government to retrieve a sacred book from the grasp of an Islamist terror network operating out of northern Iraq in the land of the Yezidi Practitioners of a monotheistic religion with mystical traditions the Yezidi are all that s left of an ancient sect that possessed the key to the origins of the human race

and was in conflict with another more ancient civilization from beyond the stars Hailed by author Christopher Farnsworth Blood Oath as a more intelligent DaVinci Code and by Whitley Strieber The Key as a riveting work of fiction this book will thrill Lovecraft aficionados readers of reality based thrillers and conspiracy theorists alike **Lies from the Pit** Joseph Nadeau,2016-06-06 Who buys these lies There is no God If you do more good than bad youll go to Heaven When you die you will be reincarnated David and Jonathan were homosexuals The pope is infallible Jesus Christ was just a man All religions are really the same Heaven and Hell are only states of mind Isaiah 53 refers to the Jewish people not to Jesus Christ There are many ways to God The Lord Jesus Christ said of Satan When he speaketh a lie he speaketh of his own for he is a liar and the father of it John 8 44 In this spiritually seductive and dangerous age there is no dearth of the devils falsehoods Which ones do you believe It has been said that no lie can live forever but lies from the pit of Hell will prevent you from living forever with the Lord Jesus Christ who alone is the Way the Truth and the Life John 14 6 Now more than ever in this undiscerning time of tolerance we must identify and condemn the devils counterfeits regardless of who is offended This compilation of religious and moral lies and their refutations will inform as well as offend both un awakened sinners and soft theology Christians provoking them to seek the truth of Gods Word and the salvation that is only in His Son for outside of Gods Kingdom writhing in eternal fire will be whosoever loveth and maketh a lie Revelation 22 15 *National-Socialist Archaeology in Europe and its Legacies* Martijn Eickhoff,Daniel Modl,Katie Meheux,Erwin Nuijten,2023-08-14 This edited volume is dedicated to national socialist archaeology as a Europe wide phenomenon It analyses national socialist attempts to denationalize the archaeologies of European nations by creating a new unifying European archaeology on a racial basis From the beginning of the nineteenth century archaeology began to develop into an important force behind processes of nation building At the same time structures of transnational academic collaboration contributed strongly to the internal dynamics of the research field which was primarily organized on a national basis In those European countries that were confronted with national socialist occupation and repression between 1939 and 1945 these transnational archaeological networks were to prove crucial for the development of national socialist archaeological policies This volume will reveal how national socialist archaeology was to an extent valued positively in its time as highly innovative even influencing the archaeology of non occupied countries Although in the final instance it generally failed to displace the national archaeologies in Europe the volume also analyses the long term impact of national socialist rule on the development of European archaeology How did the attempts to create a unified European archaeology after 1945 continue to influence networks methods and terminologies institutional structures or popular representations of the early past Chapter 1 Is available open access under a Creative Commons Attribution 4 0 International License via Springerlink **Astrology** P. The Juggler of Notre Dame and the Medievalizing of Modernity Jan M. Ziolkowski, 2018-12-12 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today In this concluding volume Ziolkowski explores the popularity of The Juggler of Notre Dame from the 1930s through the Second World War especially in the Allied Resistance Its popularity in the United States was subsequently maintained by figures as diverse as Tony Curtis and W H Auden and although recently the story and medievalism have lost ground the future of both holds promise Presented with great clarity and simplicity Ziolkowski's work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies **Nauhaus** Frieda Honiball, 2013-01-09 It is not often that genealogical details make for easy reading In this book the authors present more than 500 years of their family history in an interesting informative yet easily readable manner This family history is set out in the context of the origins of Protestantism of the Moravian Missionary Movement and of the activities of the Berlin Missionary Society in Southern Africa

Also included are the biographies of the Moravian missionary Carl Friedrich Nauhaus and his three nephews the Berlin missionaries Carl Theodor Nauhaus Friedrich Wilhelm Nauhaus and Carl August Ferdinand Nauhaus all of whom left Germany in the nineteenth century for mission services in Southern Africa **Black Terror White Soldiers** David Livingstone, 2013-06-16 Far too ignorant of the histories of the rest of the world being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man's Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history **The Secret Temple** Peter Levenda, 2020-08-15 This is a unique history of Masonry written from the perspective of an educated outsider The author is sympathetic to Masonic goals a historian of secret societies and political conspiracies and an exhaustive researcher He looks back to the earliest roots of the Craft and then traces its influence into modern times From the Bible's Temple of Solomon through the Knights Templars to the Rosicrucians and Illuminati we learn of Masonry's roots and early history

Enlightenment philosophy and the revolutionary currents of eighteenth century Europe opened an opportunity for the American experiment Sacred geometry and architecture combined to create Washington DC and the rest as they say is history This second revised and enlarged edition includes a new chapter on Freemasonry in South America from the revolution of Sim n Bol var to the capture and execution of Che Guevara *The Sign of the Cross* Daniel Rancour-Laferriere,2017-09-08 This book presents a unique effort to create a new understanding of the Christian sign of the cross At its core it traces the conscious and unconscious influence of this visual symbol through time What began as the crucifixion of a Jewish troublemaker in Roman occupied Judea in the first century eventually gave rise to a broad spectrum of readings of the instrument used to accomplish such a punishment a cross The author argues that Jesus was a provocative grandiose masochist whose suffering and death initially signified redemption for believers This idea gradually morphed into a Christian sense of freedom to persecute and wage war against non believers however as can be seen in the Crusades wars of the cross Many believers even construed the murder of their savior as a crime perpetrated by the Jews and this paranoid notion culminated in the mass murder of European Jews under the sign of the Nazi hooked cross Hakenkreuz Rancour Laferriere s book is expertly written and argued it will be readable to a large audience because it touches on many areas of controversy interest and scholarship The work is critical but not unfair it employs psychoanalysis art history the study of the symbol of the cross in works of art religion and religious texts and world history generally The interweaving of these various themes is what gives this work its ability to draw in readers and will ultimately be what keeps the reader interested through the conclusion *Dictionary of the Holocaust* Eric J. Epstein,Philip Rosen,1997-11-20 This concise easy to use resource on the Holocaust is rich in factual and statistical information and provides a comprehensive compilation of the people and terms that are essential for an understanding of the Holocaust In 2 000 entries it profiles major personalities covers concentration and death camps cities and countries and significant events Also included are important terms translated from German French Polish Yiddish and twelve other languages Biographical entries give a brief history the person s significance and their historical context Geographical entries pinpoint exact locations using other cities or countries as landmarks and give the number of Jewish inhabitants before Nazi occupation and the percentage of Jews killed Historical background is provided for such events as Kristallnacht and the Warsaw Ghetto Uprising and entries on concentration and death camps give details on the nationalities interned the camp s specific location and its history This reference is impressive in its scope and includes major perpetrators bystanders collaborators victims rescuers such as Righteous Gentiles Jewish ghetto fighters and partisans It also explores the role of women and the complicity of physicians and industrialists during the Holocaust more fully than any other reference This dictionary provides the information needed by students whose understanding of the Holocaust is limited by the absence of a single accessible research text
