Hitler's Luftwaffe Infantry Antonio J Muñoz, 2025-11-25 By spring 1942 Hitler's forces on the Eastern Front were suffering heavy losses To replace these casualties the Army requested the transfer of 20 000 men from the Kriegsmarine and 200 000 airmen from the Luftwaffe to be retrained as infantry Reichsmarschall Hermann Goring head of the Luftwaffe vehemently opposed the plan fearing it would diminish his political power after several Luftwaffe failures He proposed instead that the Luftwaffe raise and equip these 200 000 men arguing their Nazi spirit would benefit the war effort Hitler prioritizing political loyalty over military logic approved the creation of Luftwaffen Felddivisionen Luftwaffe Field Divisions Despite being ill suited for front line combat these divisions were deployed in all theatres except North Africa They were generally ineffective with many regarded as fit only for garrison duties On the Eastern Front they struggled due to the brutal intensity of the fighting However two divisions the 12th and 21st performed relatively well This in depth study examines the Luftwaffe Field Divisions uncovering the tragic consequences of Goring's decision Many Luftwaffe personnel perished in these ill prepared divisions whose lives might have been spared had they received proper Army training The research draws on extensive archival materials highlighting the human cost of this strategic blunder

The Savage Storm James Holland, 2023-12-12 Acclaimed WWII historian James Holland both narrates and reframes the controversial first months of the Italian Campaign and sets a new standard in the chronicling of war Following victory in Sicily while the central command planned the spring

1944 invasion of France Allied troops crossed into southern Italy in September 1943 expecting to drive Axis forces north and liberate Rome by Christmas Italy quickly surrendered but German divisions fiercely resisted and the hoped for quick victory descended into one of the most challenging and protracted battles of the entire war James Holland's *The Savage Storm* chronicling the dramatic opening months of the Italian Campaign in unflinching and insightful detail is unlike any campaign history yet written Holland has always narrated war at ground level but here goes further by chronicling events almost entirely through the contemporary eyes of those who were there on all sides and at all levels Allied Axis civilians alike Weaving together a wealth of letters diaries and other documents from the likes of American General Mark Clark German battalion commander Georg Zellner New Zealand lance corporal Roger Smith legendary war reporter Ernie Pyle and Italian politician Filippo Caracciolo Holland traces the battles as they were experienced across plains over mountains through shattered villages and cities in intense heat and towards the end of December 1943 frigid cold and relentless rain Such close up views persuade Holland to recast important aspects of the campaign reappraising the reputation of Mark Clark himself and other senior commanders of the U S Fifth and British Eighth armies Given the shortage of Allied shipping and materiel allocated to Italy because of the build up for D Day more was expected of Allied troops in Italy than anywhere else and as accounts at the time attest a huge price was paid by everyone for each bloodily contested mile Putting readers vividly in the moment as events unfolded with characters made unforgettable by their own words *The Savage Storm* is a defining account of the pivotal months leading to Monte Cassino and a landmark in the writing about war

Feldherrnhalle Alfonso Escudra Sánchez, 1996 The main text and appendices complement each other and for the serious historian this book gives a new insight into a little researched group of units those bearing the title Feldherrnhalle As the name suggests and the book amply explains these groups had more than just passing links with the Sturmabteilung for whom the Feldherrnhalle Arch in Munich was synonymous with the National Socialists struggle for power The SA leaders the Feldherrnhalle units were perhaps viewed as an extension of their own SA Standarte Feldherrnhalle The armed Guards unit of the SA and as near to their ideal of a political soldier as they were ever likely to achieve following the rise to power of their rivals the SS Alfonso Escudra Sanchez has produced an unquestionably erudite work on units whose combat achievements evidently deserve more widespread dissemination The word Elite is perhaps overused in modern military writing but it undoubtedly sums up the Feldherrnhalle whose military prowess was often beyond comparison For the

English language market this volume will soon prove itself to be the primary source for those seeking information on the Feldherrnhalle units

Cassino '44 James Holland, 2024-11-12 Acclaimed World War II historian James Holland vividly relates the dramatic last months of the Italian Campaign in a masterful volume that brings new awareness to this vital hinge point of the war As the new year of 1944 began in Italy the Allied army's momentum had ground to a halt just south of the vaunted German Gustav Line of defense far short of their initial objective of liberating Rome by Christmas The fighting up the Italian peninsula had been brutal rugged terrain fierce resistance terrible weather While Allied leaders in London prepared for the cross Channel invasion of France later that spring the war in the West hinged in Italy As bestselling historian James Holland relates in his seminal concluding volume on the Italy Campaign the next five months saw two of World War II's most famous battles the four ferocious assaults on Monte Cassino and the fraught landing northwest in the marshes at Anzio culminating at last in the liberation of Rome on June 4 merely two days before D Day Based on twenty years of research Cassino 44 offers perspectives and conclusions that differ from the standard narrative Holland elevates the narrative of war chronicling the dramatic events primarily through in the moment letters and diaries of those who were there Counterpointing the memories of German soldiers like battalion commander Jurg Kellner with those of British captain John Strick and American corporal Audie Murphy whose exploits in the field would lead to Hollywood fame and of Italian citizens and politicians caught up in the maelstrom Holland vividly recreates their day to day encounter with destiny over each bloodily contested mile General Mark Clark overall Allied commander in Italy has been criticized for being overly cautious and needlessly extending the campaign Holland argues that given the conditions and constant shortage of materiel held back for the D Day invasion Clark and other commanders led a remarkably successful campaign Well more than 100 000 Allied casualties occurred in the five months leading to Rome more than in any other campaign of the war Cassino 44 is the definitive account of a key turning point of World War II and brings our appreciation of the experience of war to a new level
