operations missions during the late 1970s and 1980 a decision was made to revamp its unconventional military capabilities. The subsequent reorganization and redesignation in 1983 created the SEALs as they are known today and later the all encompassing command for US special operations forces under which they operate. Since then these Navy Special Warfare NSW forces have operated in Grenada, the Persian Gulf, Panama, Somalia, Bosnia, Haiti, and Liberia. NSW units also participated in the missions of Operation Enduring Freedom in Afghanistan and Operation Iraqi Freedom in Iraq. This book looks at the history, organization, training, uniforms, equipment, and missions of the US Navy SEALs since their redesignation until the conflict in the Gulf.

This book addresses all key battles, the nations involved, strategies employed by both sides, weapon systems used, the role of the media, the role played by women, and environmental and medical issues associated with the conflict.

**To be a Paratrooper** Gregory Mast, Hans Halberstadt. The paratrooper first used extensively in World War II gives an airborne force a tactical edge. Inserted into the battlefield from the air, the paratrooper can go into areas not accessible by land. He can evade enemy fortifications and force an army to spread its defenses to protect areas that normally would be safe by virtue of geography. This book describes what it takes to be a paratrooper. From parachute training to operating as part of an airborne force, readers learn about the tactics, the training, and the mental and physical attributes that make these special forces some of the most respected and honored elite soldiers in the military.
