

TAMIL NADU ELECTRICITY BOARD

MANUAL ON PRE-COMMISSIONING & PERIODICAL TESTING

FOREWORD

The need for a comprehensive manual on Substation equipments and testing procedures for these equipments is a long felt need. Initiative for this was taken in July 1999 to prepare such a manual by constituting a Committee of experts.

It is not enough if the officers of specialized field such as GRT, MRT, SS Erection, Transformer Erection etc., know about such testing procedures. The officers in charge of Substations should also have adequate knowledge of the equipments they are in charge of, so that these equipments are maintained well, operated in the way they should be done. Besides the maintenance officials, the operators of the 400 KV, 230 KV and 110 KV Substations should also be familiar about the functioning of each equipment they have to operate, observe and monitor during the course of their duty.

Though piece meal instructions are available in various literature and supplier's manuals, they are not codified and written in the way the maintenance and operating officials could easily understand and carry out their function with confidence and in a systematic way.
