Toads and Tessellations Sharon Morrisette, 2012-07-01 Enzo is the son of a great magician however unlike his father his spells create chaos instead of order What really interests Enzo more than books about magic are books by and about the lives of famous physicists and astronomers like Galileo Galilei and Johannes Kepler Enzo dreams not of becoming a magician but a mathematician instead When Tessel the village shoemaker is called upon to make twelve identical shoes out of only one piece of leather Aida the shoemaker's sister goes to Enzo's father for some magic to help her brother With Enzo's father out of town at a magic convention it's up to Enzo to help Aida and Tessel out of their predicament A spell snafu leads Enzo and Aida to a method of forming patterns without gaps or overlaps and they discover that math not magic may be the answer to their problem Sharon Morrisette's accessible text introduces readers to the concept of tessellations while Philomena O'Neill's illustrations offer a clear visual to what tiling is children will enjoy finding the tessellations hidden throughout the images
