Since Buda's prototype, the car bomb has evolved into a poor man's air force, a generic weapon of mass destruction that now craters cities from Bombay to Oklahoma City. In this provocative history, Mike Davis traces the its worldwide use and development in the process, exposing the role of state intelligence agencies, particularly those of the United States, Israel, India and Pakistan, in globalizing urban terrorist techniques. Davis argues that it is the incessant impact of car bombs rather than the more apocalyptic threats of nuclear or bio-terrorism that
